VOL. 3. NO. 114 PRICE FIVE CENTS.

DEATH CAME SUDDENLY

WALTER C. GARRETT DIED THIS FORENOON AT 904 EAST THIRD STREET.

WAS TAKEN ILL WEEK AGO LAST TUESDAY

Had Been Employed at the Missouri Pacific Shops Several Years —Funeral Arrangements Not Perfected.

Walter C. Garrett, a Missouri Pacific engine wiper at the old shops, died suddenly from heart trouble at his home, 904 East Third street, at 10:30 o'clock this morning. He was 44 years old.

A week ago last Tuesday Mr. Garrett was taken ill, complaining of pains about his heart. He had not worked since that date.

He arose as usual this morning, and at the hour stated, made an utterance. Tenants of the house ran to a cot, on which he was lying, but he failed to answer repeated calls.

Mr. Garrett had been employed at the shops for several years. He carried insurance in Sedalia camp No. 5570, Modern Woodmen of America, and belonged to the First Congregational church.

He leaves a son, Walter Garrett, aged 20, and the following brothers and sisters:

Charles Garrett, of Jefferson City; Mrs. G. S. Henderson, of Sedalia; Mrs. S. R. Payne, of Sedalia; Thomas Garrett, of Sedalia; Mrs. Elizabeth Beaton and Mrs. Lottie Warren, both of Pomona, Cal.

The funeral will be held from the residence of Mrs. Payne, Fourth street and Moniteau avenue, but further arrangements have not been made.

BURGLARIZED A RESIDENCE

The Home of William I. Dixon Entered Last Night.

The home of William I. Dixon, stock clerk at the Missouri Pacific shops, at 316 West Johnson street, was entered by burglars last night. A gold watch, valued at $40, a small sum of money and some chewing tobacco were taken.

The intruders removed a panel in the rear door, and reaching through, removed the night lock. After entering the house they extinguished the light and ransacked the place. In searching the residence the burglars overlooked two other watches.

Mrs. Lee Hodges, a sister of Mr. Dixon, who occupied apartments in the residence, was awakened by noise some time during the night, but paid no attention to it.

JUMPED FROM A WINDOW

At the Home of Samuel C. Fuller and Made Their Escape.

A police call was sent to headquarters from the residence of S. C. Fuller, 117 East Seventh street, late Wednesday afternoon, owing to the queer actions of a negro employe working at the home.

The negro had been working for Mrs. Fuller less than a month. Wednesday afternoon she noticed him carrying meals upstairs and summoned a policeman. In the meantime she investigated and discovered a negress in the third story of the residence.

On learning that Mrs. Fuller had summoned an officer, the negro and his female friend jumped from an upstairs window and escaped, and all efforts of the officer to locate them failed.

OPERATED UPON RAINEY

He Has Been Suffering From a Rising in His Head.

Bert Rainey, a clerk for the Palace Clothing company, who for over a week has been bedfast at his home, 1405 South Osage avenue, suffering from a rising in his head, was removed to the M., K. & T. railway hospital this morning, where at 11 o'clock he was operated upon by Dr. S. G. Kelly, assisted by Dr. George E. McNeil.

The patient passed the operation very well. Mr. Rainey was thought to have been improving earlier in the week. He suffers more at night than during the day, and the attending physician deemed it advisable to operate at once to avoid complications which might result from deferring the matter.

Miss Alexander Not Candidate

Miss Louise Alexander, daughter of Supt. and Mrs. A. J. Alexander, is not entering the St. Louis Star's contest in the awarding of $12,500 in prizes, as was printed in the local press recently.

Miss Alexander's name was entered without her consent, and on learning the fact she immediately requested that it be withdrawn, which the paper has failed to do.

WRECKED BY A DEAD MAN

THIS IS THE EXPLANATION OF AN ACCIDENT ON THE M., K. & T. RAILWAY.

BELIEVED THE ENGINEER DIED IN CAB

This Being the Case Slow Order Was a Dead Letter—Officials of the Road Give This as Their Belief.

Officials of the Missouri, Kansas and Texas railway company at Denison, Texas, assert a belief that Engineer William Frazier, whose train was wrecked near Bonita, Texas, Tuesday night, as chronicled in an Associated Press dispatch in yesterday's Democrat-Sentinel, died of heart failure in his engine, his death causing the wreck.

Experienced railroad men say that it is almost beyond human belief that with train orders calling for speed at four miles an hour, and the knowledge of a bad wreck at the same place the previous night, a sane man would have passed two flagmen and crashed into the wrecking car's crew on the sidetrack.

Frazier had suffered much lately from heart trouble.

VISITED OUR FAIR GROUNDS

Came Here to Get Pointers for Buildings at Dallas.

E. J. Kiest, president of the Texas state fair board; W. I. Yopp, a director; Ben E. Cabell, assistant secretary of the board; E. L. Pike, a member of the Dallas, Tex., park board, and H. H. Adams, chairman of the Texas Coliseum company, arrived in Sedalia at 8:25 o'clock this morning to visit the Missouri state fair grounds, with a view of gathering points preliminary to the erection of a Coliseum at Dallas.

The gentlemen were met by J. R. McAllister, a personal friend of all, and accompanied by J. T. Stinson, secretary of the Missouri state fair board, and T. W. Bast, the architect, were driven to the fair grounds, where they spent several hours inspecting the buildings.

The party had visited four other places before reaching Sedalia, and stated that Sedalia has the most up-to-date and best all-round fair buildings they have yet seen.

The party went to Kansas City this afternoon and then they will go to St. Joseph.

FRED HOLMESLY WEDS

Former Sedalia Boy Claims Bride in Mexico.

Mr. and Mrs. W. S. Holmesly, 909 South Vermont avenue, today received a card announcing the marriage of their son, Fred L. Holmesly, to Miss Matilde Margaret Bearman, of Aqualcalientes, Mexico, at her home at that place at 8 o'clock last night.

Miss Bearman is a daughter of Mrs. Teresa Bearman, of that place. Mr. Holmesly formerly resided in Sedalia, at which time he was employed as clerk in the master carbuilder's office at the M., K. & T. shops.

He left here several years ago for Mexico to become chief clerk for the trainmaster of the Mexican Central railway at Aqualcalientes.

"KENTUCKIANS" PICNIC

NATIVE OF BLUE GRASS STATE WRITES TO THE SECRETARY, C. C. LAWSON.

EPISTLE IS WELL WORTHY OF PERUSAL

Also Sends Souvenirs to Be Given to the Native Kentuckians Who Attend Second Annual Picnic August 7.

C. C. Lawson, secretary of the Kentuckians, which organization will celebrate its second annual reunion at Liberty park on August 7, is in receipt of the following self-explanatory communication, which will be read with interest by every Sedalian:

Owensboro, Ky., U. S. A., May 8, 1909. Mr. C. C. Lawson, Sedalia, Mo. Dear Sir: We have your favor of May 8 and note its contents. Our hearts go out in sympathy for all exiled Kentuckians, for, however much they have accomplished, however much of glory they have won in alien lands, they have not fared as well as if they had remained attached to the soil that gave them birth.

They may have, and doubtless most of them have, done better in a material way than if they had lingered in the neighborhood of their nativity, but they have lost their identity with the "chosen race" that, despite all that has come upon it in recent years, remains the most righteously proud people on the face of the earth.

We would say to every one of those in your association, "Come home home to Kentucky," but as they have all dipped their hands in the fleshpots of Egypt, we know our call is vain and shall not sound in their ears. We are glad, then, to put in their hands a little souvenir of the land of their fathers, and are accordingly sending you by prepaid express today 500 watch fobs, 500 postcards and 500 Green river blotters, which we will ask you to kindly use at your pleasure on the occasion of which we speak.

Give our greetings to every one of them, and if you think there are not enough of the cards and fobs to go around, let us know at once and we shall be pleased to make another shipment.

For yourself we are sending a copy of our picture, "She Was Bred in Old Kentucky," which kindly accept with our compliments and honor us by hanging on your wall.

If you can find time after the meeting, kindly write us a few words about it, as we shall be pleased to know of its success.

We are sorry to say that the roster to which you referred was not found with your letter.

With kindest regards and best wishes, we are, yours truly.—Green River Distilling Co., W. H. Bowman, Secretary and Treasurer.

The Woodmen's Annual Memorial.

BRIDE ON $15,000 "TIPS"

BOOTBLACK, WITH AMERICAN WIFE, TAKES HONEYMOON TRIP TO ITALY.

HE "KNOWS" NOTED MEN IN METROPOLIS

Prince de Sagan and Mme. Gould Were Among Those Who Were Customers at Fashionable Hotels in New York.

New York, May 13.—With $15,000 and a pretty American wife, the former the result of nine years of shining shoes at the Waldorf and St. Regis hotels, Donato Digilio is on his way to Italy, proud to be an American citizen.

The signor said he had rather be an American citizen and shine the shoes of his fellow citizens than be the son of the king of Italy.

Digilio's $15,000 came entirely, he says, in the form of tips from men and women who have had their shoes shined by him.

Among his customers he boasts Charles M. Schwab, the steel magnate; Prince De Sagan and Mme. Gould, and a hundred or more Wall street financiers.

Recently Digilio marred a young American woman and his trip to Italy is in the nature of a honeymoon.

"I will not stay long in Italy," says Digilio. "I love Italy—but she does not make millionaires."

A FATAL AUTO ACCIDENT

THE HON. A. P. RIDDLE KILLED AT A POINT NEAR SALINA, KAS., EARLY THIS MORNING.

WAS A FORMER LIEUTENANT GOVERNOR

With Party of Four Was Taking Pleasure Drive From Minneapolis When the Machine Ran Into Embankment.

Salina, Kan., May 13.—A. P. Riddle, former lieutenant governor of Kansas, was killed in an automobile accident near here early today.

Mr. Riddle was en route from Minneapolis, Kan., his home, to Salina on a pleasure drive, accompanied by a party of four. The machine, which was driven by Charles Thomas, struck an embankment about five miles north of Salina, throwing the occupants into a ditch.

Mr. Riddle struck on his head and lived but an hour.

He was editor of the Minneapolis Messenger and also of the official organs of the Ancient Order of United Workmen of Kansas and the Knights of Pythias.

Other members of the party, all of them Minneapolis men, escaped with slight bruises. They were John L. King, Samuel Kreager, Charles Thomas and Charles Richmond.

At the time of the accident the car was running thirty miles an hour, in the darkness the party got off the main road. Mr. Riddle was thrown a distance of thirty-five feet, lighting on his head. The others were thrown fully forty-five feet, but miraculously escaped death.

Mr. Riddle was conscious to the last, and his dying words were for his wife. "Kiss mamma for me," he said, and succumbed.

HURT FIGHTING FLAMES

A ONE HUNDRED THOUSAND DOLLAR BLAZE AT LOND ISLAND, KANSAS.

IT OCCURRED AT MIDNIGHT LAST NIGHT

Believed to Have Been Caused by Spontaneous Combustion—Two Men Severely Injured in Battling With Fire.

Philipsburg, Kan., May 13.—Fire at midnight last night at Long Island, Kan., a small town twenty miles north of here, close to the Nebraska line, destroyed five business buildings, causing a loss estimated at $100,000.

The conflagration started in a furniture store, supposedly from spontaneous combustion; and, as the town had no fire apparatus, the flames practically burned themselves out.

The buildings destroyed include the furniture store, a general store and a drug store.

Two men were severely injured while fighting the flames

MASONS HAD A BANQUET

Ladies of Eastern Star Entertained Them Last Night.

St. Omer Commandery No. 11, Knights Templar, was given one of the most select banquets of the season at the Masonic Temple last night by the members of the Order of Eastern Star.

Previously the temple degree was conferred on James A. Fleming, of Lamonte, after which the members of the order were invited to the banquet hall, where four tables were set, arranged for the affair.

Visitors were present from Warrensburg, Boonville, Clinton and other neighboring towns. Impromptu speeches were made, and the following menu was served:

Sliced ham, tongue, sliced tomatoes, radishes, fancy potatoes, light and brown bread, strawberries, ice cream, coffee, assorted home-made cake and cigars.

STONE GUNS FOR AKINS

A LITTLE LATE IN GOING AFTER SCALP OF PROMINENT REPUBLICAN.

MAY THINK, "BETTER LATE THAN NEVER"

His Present Action and Attitude on Shortage Relief Bill Puzzling Both in Washington and Missouri.

Washington, May 13.—There is political significance in Senator Stone's announced intention to make some remarks regarding the $61,500 defalcation from the St. Louis sub-treasury before permitting the confirmation of Thomas J. Akins' nomination as postmaster of St. Louis.

By an odd coincidence, Senator Stone introduced in the senate, in the first session of the Sixtieth congress, a bill appropriating $61,500 for the relief of Akins, who, admittedly, is personally innocent of any connection with the disappearance of this amount from Uncle Sam's strong box.

The fact that Senator Stone introduced the relief bill leads many to wonder what he can have to say about Akins. The democrats of Missouri were much embarrassed, it was said, by the fact that the senior senator, a democrat, had introduced this bill for the relief of a republican official and political leader. During the last campaign, when some political thunder might have been manufactured from this shortage of $61,500, the hands of the democrats were tied.

Stone explained that he introduced the bill out of courtesy to Senator Warner, who was absent at the time; but, so far as he can be learned, there is nothing of record to show that he offered even a word of explanation at the time the bill was introduced. When it was up for passage no senator's voice was raised against it.

The old state school fund row is mixed up in this matter. Akins is credited with having been largely responsible for the agitation of the school fund shortage, republicans declaring that the democrats had misappropriated the funds that were laid aside for educational purposes.

When the disclosure of the $61,500 shortage in the St. Louis sub-treasury bobbed up, it looked much like a cance to get even, at least in part. This chance was destroyed by the introduction of Akins' bill by a democratic senator from Missouri.

However meritorious the relief bill may be, it played havoc with that kind of democratic campaign thunder in Missouri.

COMING HOME?

Back to Sedalia, the beautiful Queen City, and visit again the scenes of years gone by.

The Home Coming reunion will be held October 2, 3, 4 and 5, during the week of the Missouri state fair.

The semi-centennial of the founding of the city will be celebrated, and a grand welcome will be extended to all who gather to commemorate the event.

There are ex-Sedalians everywhere, but they will all be here again at the Home Coming.

ROOSEVELT AS MAYOR OF NEW YORK CITY.

And now we have a plan broached for electing Theodore Roosevelt mayor of New York City. This answers the question, many times raised, what to do with our ex-presidents.

But so did the proposal to elect Mr. Roosevelt United States senator from New York state. There was no evidence that this plan met with a favorable reception by the then president, and it may be regarded as extremely doubtful if he would have approved it had not the aspirations of his secretary of state for the place stood in the way.

If Roosevelt would not accept a senatorship, would he become mayor of New York City? Of course, it can not be said with positiveness that he will never become senator, for he is in the prime of life and it is possible that his restless activity may at some time in the future impel him to return to the atmosphere of public life, in which he has lived so many years. But we think that if he were averse to entering the senate he would decline to serve New York City.

Novel as would be the fact, the suggestion of an ex-president for mayor of New York is not a shock to the imagination. There is no real reason why a man, because he has served as president, should become a recluse.

There is, on the contrary, the best reasons, under our institutions, why he should remain in public life, if conditions are favorable, and contribute his distinguished abilities, if he has them, to the welfare of the people in whatever capacity he may accomplish the greatest good.

Either the senatorship of the mayoralty of New York would be an office worthy the retiring chief executive. In the opinion of the Democrat-Sentinel the senatorship ranks next to the presidency in the exercise of practical statesmanship and in the opportunity for rendering the country service of the greatest value.

But the mayoralty of New York would offer a chance for good almost as great. The problems of municipal government are the most serious with which the people of America have to deal today; in many cities they outweigh the problems of state and nation; they extend to the closest contact with the individual; they touch his immediate interests most directly and most vitally. Those of New York City transcend all others in importance and difficulty of solution.

The man who should meet the governmental needs of the metropolis would perform an extraordinary public service, even though he were an ex-president. But is Roosevelt just the man for the job? There will be widely different opinions on the subject.

BOYLE KIDNAPING CASE.

The sentences imposed upon the Boyles for the kidnaping of Willie Whitla are severe. Both the defendants were given the maximum of the law's punishment, the man for the abduction itself and the woman for aiding and abetting him in the crime. We think that substantial justice has been done and that the judgment of the court will be approved by public opinion.

It is true that a certain amount of sentiment favoring the prisoners, especially the woman, has developed, but it is wholly a morbid sentiment which should have no claim upon a court or a jury in determining the punishment and guilt of the accused.

The air of mystery which has been thrown around the case, the defiance of the woman and the assertion of both herself and her supposed husband that others were interested in the kidnaping are responsible for whatever feeling in their behalf may exist.

Some color was given these charges by the statement in open court of the Boyles' attorney, ex-Judge Miller, an old and reputable attorney, that during his thirty-nine years' experience in the Mercer court he had never seen so much money and influence brought to bear to prejudice the minds of jurors before they were sworn. Boyle's statement involving a Sharon man in the kidnaping is, however, disappointing. There may be something in it, but the charge is not proven.

In view of these facts, it seems that the court has not been unusually harsh in inflicting the full penalties. The crime of kidnaping is one of the most dastardly and easily ranks with murder.

The stealing of the Whitla boy, so far as has appeared, had no mitigating circumstances, and for the time being the success with which it seemed to be accomplished rendered every home less secure against the fiendish inhumanity.

The sentences imposed are, on the other hand, an impressive object lesson, showing the folly of attempting such crimes, and restores in large degree the protection with which children should be surrounded.

THE CONVICTION OF HAINS.

Captain Peter C. Hains, Jr., the army officer who killed William Annis last summer on the Long Island shore, for trespassing upon his family preserves, has been found guilty of manslaughter in the first degree, the maximum penalty for which is imprisonment for twenty years.

The defendant's attorney, Daniel O'Reilly, is quoted as saying that there was no evidence in this case to warrant a verdict of manslaughter, that it should have been either murder in the first degree or acquittal on the ground of insanity.

The verdict was a compromise. Six of the jurors were for murder in the first degree and six were for acquittal on the ground of insanity. Very likely Hains was under a mental strain at the time of the shooting. The jury believed, according to one of the members, that Hains' wife had confessed to improper relations with Annis; they also believed, according to this authority, that Annis got what was coming to him.

But these sentiments did not actuate them to uphold the "unwritten law," for which they are to be commended. The conviction of Hains, like the conviction of the Coopers in Tennessee, will help to put the infamous "unwritten law" out of practice.

Though the evidence was not deemed sufficient to convict T. Jenkins Hains, a brother, of complicity in the murder, the reading public who have followed the case will hardly acquit him of malevolent influence over his apparently weaker brother, and public sentiment would doubtless have been better satisfied if the brothers had been made to share in the punishment, as they apparently shared in the crime.

Kentucky Widow Says Bachelor Won Her, Now Won't Wed.

Lexington, Ky., May 13.—Charles Kitchen, a bachelor, 65 years old, principal owner of the Vansant-Kitchen Lumber company, and one of the wealthiest men in Eastern Kentucky, was made defendant in a breach of promise suit filed in the Boyle circuit court at Ashland yesterday by Mrs. Nelia Toliver.

Mrs. Toliver alleges that Kitchen sought her hand in marriage several months ago and promised to give her $25,000 in cash and $15,000 worth of city real estate if she would become his wife.

Following her acceptance of the agreement, she says, he paid violent court to her and caused other admirers to cease paying attention, but that after she had completed her trousseau he postponed the wedding from September, 1908, to January, 1909, and again during the latter month sought another postponement until April, 1909, which she consented to.

She alleges that since the latter date he has continuously refused to marry her, and she prays for a judgment of $50,000.

Mrs. Toliver is a widow, 21 years old. The filing of the suit has caused a decided sensation in financial circles throughout Eastern Kentucky, as Kitchen is a power both financially and politically in that section.

THE G. A. R. AT JOPLIN

Heavy Decrease in the Ranks Is Due to Delinquencies.

Joplin, Mo., May 13.—A heavy decrease in the ranks of the G. A. R. in Missouri during the past year is due chiefly to the suspension of delinquent members and is not accounted for by the heavy death list, acording to the report of J. V. Martin, of Brookfield, department commander, which was introduced before the twenty-eighth annual encampment, at the Club theater, last afternoon.

He said the new members would overbalance the death list, but, because of delinquencies, the membership is gradually decreasing. Financially, the order is said to be in good condition.

City Counselor Mercer Arnold officiated at a flag presentation to the High school in behalf of the Women's Relief Corps of the state last afternoon. The Grand Army men marched to the High school, two abreast, headed by a drum and fife corps and a brass band. The automobile fire equipment was displayed for the benefit of the visitors.

Three entertainments were held last night, one a reception by the W. R. C. at the Commercial club rooms, another by the Germans at Germania hall and a camp fire at the Club theater. Several speakers made addresses.

The encampment will end today with the election of officers of the G. A. R., of the ladies of the G. A. R. and of the Women's Relief Corps.

TWENTY MEN ARE DEAD

AS THE RESULT OF PREMATURE EXPLOSION OF DYNAMITE IN NEW YORK QUARRY.

MANY OF THE BODIES BLOWN TO ATOMS

Four Tons of Explosive Fired—The Place Is Littered With the Remains of Those Who Were at the Scene.

Albany, N. Y., May 13.—Twenty men were killed shortly before 3 o'clock last afternoon, following a premature explosion of dynamite in the quarries at South Bethlehem, twelve miles south of Albany. All within the explosion zone were instantly killed.

The dead include eight Americans and twelve Italians, the latter not being known by name.

The others killed were: John Hoyt Callanan, aged 32 and married, vice president and general manager of the Callanan Road Improvement company; Charles E. Callanan, a brother, aged 23; Leroy McMillen, assistant superintendent; John Hendrickson, steam drill foreman; Fred Snyder, master mechanic; William Baumes, foreman; John Maloney, blacksmith; Fred Zephart, expert for the National Powder company, of New York City.

In all, fourteen bodies were recovered last night, and all were dismembered except that of Snyder.

The Callanan Road Improvement company was operated by the two brothers of James H. Callanan, the publisher of the Schenectday Union. They furnished crushed stone for roads, railroad ballasting and concrete work.

The ten holes for yesterday's blast were drilled 20 feet back from the face of the bluff, which was sixty feet high.

The holes were 76 feet deep and 5 inches in diameter.

It was to be the biggest blast of all, using more than four tons of dynamite.

The blast was scheduled for 5 o'clock last afternoon, and was expected to dislodge material for 25,000 wagon loads of crushed stone.

Those killed had successfully placed the charges in six of the holes and were working upon the seventh, when the shock came. The explosion is supposed to have been caused by a defective cap.

All but one of the bodies, that of Snyder, were blown to pieces and scattered all over the quarry.

All that could be recognized of Leroy McMillan was his head, found some distance from the explosion, nowhere near anything that might have been his body.

The body of John Callanan was found on top of the ledge where the charge holes had been drilled, and were being filled, 50 feet from the explosion.

In the pit below, outside of the displaced rock, lay the body of Charles Callanan. All there was to identify him was a charred trunk and head. Both bodies were torn asunder.

The bodies of Baum and Maloney were burned black and dismembered.

As a result of the explosion, fear has crazed the 165 Italian laborers employed about the quarry, and many have fled.

FAULTLESS PRESCRIPTION

No Remedy for Stomach Distress and Indigestion so Perfect.

A scientific prescription for dyspepsia put up in small tablet form and called Mi-o-na is making thousands of quick and lasting cures throughout America.

There is no stomach disease (even catarrh of the stomach) that it is not guaranteed to cure, and W. E. Bard Drug Co. has so much faith in Mi-o-na for stomach disorders of all kinds that they will refund your money if it does not cure.

Mi-o-na, the faultless prescription, stops sour stomach, belching of gas, distress after eating, heartburn, biliousness and nervousness.

It is well worth a trial by any reader of the Democrat-Sentinel who suffers from any stomach disturbance. It contains ingredients that not only give relief but that act on the stomach so beneficially that in a short time the flabby, tired out walls of the stomach regain their strength and activity and can perfectly digest any kind of food without aid.

Try Mi-o-na for a week: misery will change to happiness; despair to hope, dull eyes to bright and you will yourself wonder why you suffered so long with such a remarkable prescription at hand.

And only 50 cents for a large box at W. E. Bard Drug Co. and at druggists everywhere.

HIGH-HEEL SHOES LOSE SUIT

Fell From Car While Wearing French Creations.

Oakland, Cal., May 13.—Because she was wearing high heeled shoes when she was injured by a fall from a street car, Mrs. Anna Peterson has lost her suit for damages against the Oakland Traction company.

Counsel for the corporation advanced the plea that Mrs. Peterson was guilty of contributory negligence, as no woman wearing high heeled shoes could expect to navigate a level street, let alone step hurriedly from a street car without being overbalanced.

Superior Judge Wood held the same view and gave the Oakland Traction company judgment for the costs of the action.

VICTORY FOR PRESIDENT

SENATE LEADERS TO MAKE CONCESSIONS IN THE TARIFF BILL.

NOT FROM CHOICE, BUT TO PREVENT VETO

Petroleum, Hides, Coal and Iron Ore to Be on the Free List—Said the Duty on Lumber Will Be Cut.

Washington, May 13.—The president will not veto the tariff bill. It will be made to conform to the president's views at least sufficiently so to avoid executive disapproval.

It is the purpose of the senate leaders, as soon as they get the bill into conference, to ascertain just what concessions will be required to avert a veto and make them in conference.

This can not properly be termed a defeat for the senate leaders, for the reason that they have all along realized that some such concessions would be necessary.

On the other hand, it is a victory for the president, because the leaders have become convinced that he will not sign a bill which he regards as a violation of the pledges made by the party and by him as its leader.

It is now possible to make a reasonably accurate forecast of the bill as it will be finally enacted. Petroleum, hides, coal and iron ore will be on the free list. Such other changes as are entailed by free iron ore will be made.

The Dingley tariff on lumber will be cut in two. Most of the reductions in the Payne bill will be retained. The increased duty on hosiery and gloves will be stricken out.

There will be some shading of the duties on window glass, and it is also probable that the duty on pig lead will be fixed at a flat 2 cents a pound.

DESERTED BY HIS WIFE

W. J. DAVIDSON SEARCHES TEN YEARS IN ORDER THAT HE MAY FORGIVE HER.

STORY OF "OSTLER JOE" IS TOLD AGAIN

"Write to Me; Home and Children Await You," His Message to Her Through the Press of the Mound City.

St. Louis, Mo., May 13.—The story of 'Ostler Joe has a parallel in the story of W. J. Davidson, who, after a fruitless search of more than ten years for a wife he says was faithless is hoping and praying that he may find her here in order to forgive and forget.

"For her sake and for the sake of our children," said Davidson at the Central station Wednesday.

Davidson, who is stopping at 2017 Olive street, is 45 years old. He closed a strange tale in which he begged for publicity for the sake of the story reaching the eyes of his wife, with:

"Tell her to write me, care of general delivery if she won't come in person."

Davidson says he married Mary Ann Watson in England, Feb. 3, 1886. Three children were born to them—Emily, now 22 years, Ralph, now 19 and Johnny, who was accidentally burned to death when a child. The Davidsons moved from the old country to Montreal twenty-one years ago, and thence during their life together to Chicago, Topeka, San Diego, Cal., Kansas City and lastly to Hume, Mo.

At Hume Davidson established a little restaurant. Business was dull, so he went to Kansas City, got work and left his wife and children to conduct the place. Once Emily wrote her father:

"Papa, come home Mamma is being tempted."

He rushed to Hume. The wife beguiled him. She said the suspicions of her child and neighbors were unjust, and the husband, believing, left.

"December 6, 1899, my wife left. A man in Hume deserted his wife and three children about the same time. I went back to find my home ruined and my children alone. Since then I have searched everywhere. I traced my wife to Moberly, Mo., and then to Quincy. I was ready to forgive then. At Quincy I dropped the search for a time. Then I traveled over the country, hoping in each city to her. I have been in Omaha, St. Paul and Kansas City.

"A few days ago I met a young man in Kansas City. He proved to be the son, now grown up, of the other man. He told me his father had abandoned my wife and gone to Germany, where he died five years ago.

"My wife, he said, had been seen in this city by his brother. The young man had spoken to her and she had wept bitterly.

"'If I could only find my husband and children again,' she told the man. With that information I came to this city. They told me my wife had been stopping at Broadway and Chestnut streets. I went there, but found no trace of her. So now I appeal to the police and the press. Forgiveness, home and children await my wife. She has never been far away from my thoughts and in her declining years my strength will support her."

Davidson says his wife is about 42 years of age

There is one place where bald-headed men shine, and that is in the front row seats of the theater. They do not obscure your view like the "merry widow" hats, and the reflection of the footlights on their pates lends a certain glamour to the scene. If these bald-headed people had used Wyeth's Sage and Sulphur Hair Restorer in their earlier days they would not be so conspicuous now. This preparation does not plant new hair, but it does strengthen weak, dying hair, and not only brightens dull, parched hair, but gradually restores the color to faded or gray hair. It is not a dye, but a clean, wholesome hair dressing, which can be used daily with perfect safety. It is put up in large bottles, holding sufficient for thirty-five or one hundred home treatments, and is sold by all druggists for 50c and $1.00 a bottle, or is sent direct, express prepaid, by the Wyeth Chemical Co., 74 Cortlandt street, New York City.

Try a bottle today and you will never be without it.

WOMAN WAS MURDERED

BODY IS FOUND NEAR SHAWNEE, OK., PIERCED BY FOUR BULLETS.

HER ESCORT HELD FOR INVESTIGATION

Letters Indicate Victim's Fear of Jealous Redskin Who Followed Her —The Latter Cannot Be Located.

Shawnee, Ok., May 13.—Her body pierced by four bullets, Mrs. Mollie Colclasure, mother of three children, was found dead near a crossing on the railroad west of Shawnee Tuesday. Claude W. Gorman, who kept company with the woman, is being held pending investigation.

Gorman says another man, jealous, accosted them Monday night, drove him away and murdered the woman.

That a jealous Indian shot Mrs. Colclasure is the surmise from the story that young Gorman told to the police. He and the woman had been acquainted for some time. Tuesday she came to Shawnee on her way from Hotulke to Chandler, the latter place being where her father, a county commissioner, lived.

Gorman and the woman met about 8 o'clock and went for a stroll. Their walk took them to the south edge of town and they sat down to rest. Suddenly a man appeared whom Gorman took to be an Indian. The stranger ordered them to get away.

Mrs. Colclasure became frightened and ran. Gorman stood his ground and the stranger pulled a revolver and fired. Then, Gorman says, he started to town for the police.

He says that after leaving the place he heard another shot. The police did not examine the premises Tuesday night, but the owner of the land found the woman yesterday morning.

She was shot in the head, the bullet going through. Evidently she was lying on the ground when she was shot, as the bullet tore the ground immediately beneath where her head lay.

When found she had on Gorman's coat. Letters in it, from her to Gorman, mentioned her fear of an Indian, who, she said, was following her. It is known that the Indian was here Tuesday.

ManZan Pile Remedy is put up in a tube with a nozzle attached. May be applied directly to the affected parts. Guaranteed. Price 50c. Sold by the W. E. Bard Drug Co.

Commencing on Next Saturday Night, May 15th

LOEB WANTS THE HEAD MAN

Going After Instigator in the Sugar Trust Frauds.

New York, May 13.—"Catch the one responsible man." That is the principle guiding William Loeb, Jr., collector of the port, in the house cleaning of the customs service.

He gave force and emphasis to this yesterday by summarily dismissing four United States weighers. His discharge of five assistant weighers on Monday was preliminary to his action yesterday. His next step will be to reach still higher in the official list of those connected directly or indirectly with the gigantic frauds of underweighing that have swindled the government out of millions in revenue. After that he will reach for "the one responsible man."

The men dismissed yesterday by Collector Loeb have been long in the service. They are Charles H. Waddell, appointed Oct. 18, 1889; Archibold Edmonstone, appointed July 1, 1888; John W. O'Brien, appointed Dec. 1, 1879, and Charles Dewitt, appointed September, 1882. They have been drawing $2,500 a year each. The only weigher retained by Mr. Loeb is Thomas H. Hyatt, who has been in the service since June, 1882, and who has assisted materially in uncovering the present frauds.

GIVES LIFE FOR HER HAIR

Denver Woman, to Keep 90 Inch Auburn Tresses, Dies.

Denver, May 13.—That Mrs. Manna Palmer Walley, 24 years old, sacrificed he life rather than submit to the loss of her luxuriant tresses, is the belief of Denver physicians, who attended the woman.

Mrs. Walley died at her home in Berkeley, where she had gone in the hopes of regaining her health.

It is the opinion of the physicians that the vitality which should have sustained Mrs. Walley and fought off the dread tuberculosis was consumed in her great wealth of hair, which had attained the length of ninety inches and was of a deep auburn color.

When told she must lose her tresses or perhaps die, she chose the latter course and would not hear of having her locks shorn.

HAS AGAIN DISAPPEARED

Leaves Upon Reading Story of His Alleged Noble Birth.

Painesville, O., May 13.—As suddenly as he came into public notice when he proclaimed himself the missing Archduke Johann Salvator, of Austria, John Salvator, a machinist, who has been working here in a foundry for the last five weeks, disappeared Tuesday night.

Finding upon his return to the boarding house the published story of his alleged noble birth, his renunciation of his imperial title for the love of Ludmilla Stubel, the opera singer, and his subsequent fall into poverty and obscurity, Salvator, supperless and dressed in his working clothes, hurried away.

Fellow workmen of the alleged nobleman said Salvator told them just before quitting work Tuesday night that he intended to leave here at once for some western state.

White House Clerk Ends Life.

Washington, May 13.—Physical breakdown, due, it is believed, to overwork while employed as a clerk at the White House, yesterday caused Thomas H. Netherland, 46 years old, to commit suicide.

ECZEMA A GERM DISEASE

Myriads of Microscopic Animals Infest the Skin of the Sufferer.

When the skin of an eczema sufferer itches and burns in untold agony, do you know what is going on within the pores of that skin?

Myriads of microscopic animals are gnawing at the flesh, breaking down the fine cells and causing festers, thick scales and that terrible itch. The germs multiply faster than Nature can throw them off.

Now, there is only one way to get rid of these germs—they must be killed in their lodging places. Dosing the stomach or trying to cure the blood will not, of course, kill the germs, and that is why all the blood remedies fail in eczema; that is also why salves which do not penetrate can do no permanent good.

Ordinary oil of winterwreen properly compounded in liquid form will penetrate the pores of the skin and kill the eczema germs. If properly mixed with thymol, glycerine and other ingredients (as in D. D. D. Prescription) this wash will build up the tissue of the skin and promote its healthy growth, giving Nature a chance, while killing the germs faster than they can multiply.

W. E. Bard Drug Co., of this city, recommends D. D. D. Prescription, also D. D. D. Soap.

SLASHED WITH A RAZOR

THIS IS THE LATEST DEVELOPMENT IN MICHIGAN LEGISLATIVE SCANDAL.

IS A WOMAN IN THE CASE, OF COURSE

Victim in the Cutting Case Is Friend of the Representative Who Is Accused of Visiting the Wife of a Clerk.

Detroit, Mich., May 13.—An attack on Representative W. H. Schantz, of Hastings, is the latest development in the Michigan legislature scandal, caused by an alleged visit of Representative Darwin Z. Curtiss, of Detroit, to the apartments of Mrs. Sidney R. Hall, wife of the journal clerk of the Michigan house of representatives, now in session at Lansing.

James Duggan, a politician known throughout the state, attacked Representative Schantz Tuesday night with a razor and inflicted three serious wounds upon his neck.

The legislator was hurried to a hospital. His assailant was captured later, after a struggle with the police, in which he attempted to use a revolver. Duggan was taken to jail. When he was searched there he made another fight in an effort to prevent five letters being taken from his pockets. The letters, which are said to explain his reason for assaulting Schantz, are held by the police.

Schantz was a friend of Representative Curtiss, whose exile from the capitol by order of Speaker Campbell revealed the scandal.

When Curtiss returned to the state house, despite the speaker's warning, and took his seat in the house of representatives, Sidney R. Hall, journal clerk of the house, and the husband who figures in the case, saw him and started down the aisle toward him. Speaker Campbell hurried to Curtiss, escorted him from the room and he again warned him not to return during the session.

Curtiss has ben given an indefinite leave of absence from the house.

Mrs. Hall, from whose apartments Representative Curtiss fled by a back door as her husband entered the front, is an attractive blonde. Curtiss left so hurriedly that he left his hat and coat behind, and these, found by the husband, disclosed his identity. Hall has announced that he will settle with Curtiss on sight.

Mrs. Curtiss from her home in this city sent a telegram to her husband at Lansing yesterday, directing him to stay at the capital and "fight it out."

"It must be fought out now," she added, "and you must not practically plead guilty by cowardly flight." I believe you are innocent and you must defend my faith in you by staying there."

Mrs. Hall, the young wife who figures in the Curtiss story, has left the capital and gone for a visit with relatives in Northern Michigan. Her husband left Lansing yesterday also, but while he did not go to join his wife, the place and object of his journey are kept secret.

GOOD, HONEST, SQUARE-DEAL

Medicines like those of Dr. R. V. Pierce of Buffalo, warrant their makers in printing their every ingredient, which they do, upon their outside wrappers, verifying the correctness of the same under oath. This open publicity places these medicines *in a class all by themselves.* Furthermore, it warrants physicians in prescribing them largely as they do in their worst cases.

Dr. Pierce's Golden Medical Discovery

Is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach and bowels, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), liver, bowels (as mucous diarrhea), or other organs.

Dr. Pierce's Favorite Prescription

is advised for the cure of one class of diseases only—those peculiar weaknesses, derangements and irregularities peculiar to women. It is a powerful yet gently acting invigorating tonic and nervine.

For weak, worn-out, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formulæ of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native, American, medicinal, forest plants. They are both sold by dealers in medicine. **You can't afford to accept as a substitute for one of these medicines** *of known composition*, **any** *secret nostrum.* **Don't do it.**

FORMER SEDALIAN DEAD

Dr. W. T. Thomas Appointed Member of Medical Board.

Dr. W. T. Thomas, a former Sedalia osteopath, is written of as follows in the Tacoma, Wash., Tribune of May 7:

"I am both surprised and pleased that Governor Hay has given me a place on the state board of medical examiners," said W. T. Thomas, D. O., of Tacoma, this morning. "Dr. McFadon, of Seattle, and I are the only osteopaths on the board and I am the only Tacoma representative. I feel very keenly what this means and I shall do my best to fulfill my obligations to my profession and the state."

When asked if the osteopaths will attempt to block action, Dr. Thomas said: "By all means we will work in harmony with other members of the board, of whom there are nine all told. We will demand that the laws of the state be enforced to the letter. I think the medical doctors will give us a fair show. They are disposed toward fairness in other things and I believe the board will work in harmony."

Frail Women Aided Free

The woman who is by nature not robust cannot be too careful of her health. The foundation of all health is in the stomach. Without good digestion the body is not nourished, and then soon becomes feeble and weak. In order to have good digestion regular bowel movement is absolutely necessary, and it is at this point that so many women neglect themselves.

In any of these conditions you cannot do better than to take Dr. Caldwell's Syrup Pepsin, the remedy that thousands of delicate women are using. It is the great family laxative, and in addition to its wonderful power to cure chronic constipation and chronic indigestion, it contains tonic properties that strengthen the stomach muscles so that in time they will work naturally again without the aid of medicine.

Any druggist will sell you a bottle for the small sum of 50 cents, though persons who have used the remedy before and know what it is buy the $1 size. Mrs. Amanda Brannan, of Alvarado, Va., who is 68 and feeble, uses it regularly and speaks in the highest praise of it. Esther Pine, of Marion, Ind., is also an enthusiast of this wonderful remedy and she wished she had the fortune to tell the whole world about it. Both these ladies, as well as hundreds of others we could name, first became acquainted with Dr. Caldwell's Syrup Pepsin through the doctor's offer to send any sufferer a free test bottle direct to the home.

He will send you or any other sufferer a sample bottle free of charge on receipt of your name and address. It is wonderfully effective in the stomach troubles of children and babies, girls entering the period of menstruation and old folks, all of whom need a gentle laxative.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 509 Caldwell bldg., Monticello, Ill.

FAKE HAIR PREPARATIONS

Do Hair No Good. But Often Cause It to Fall Out.

Many hair preparations are "fake" because they are merely scalp irritants. They often cause a dryness, making the hair brittle, and finally, lifeless. Dandruff is the cause of all trouble with hair. It is a germ disease. The germ makes cuticle scales as it digs to the root of the hair, where it destroys the hair's vitality, causing it to fall out. To cure dandruff, the germ must be killed. "Destroy the cause, you remove the effect." Newbro's Herpicide is the only hair preparation that kills the dandruff germ, thereby leaving the hair to grow luxuriantly. Sold by leading druggists. Send 10 cents in stamps for sample to The Herpicide Co., Detroit, Mich.

WOMAN AS A POLICEMAN

SHE HAS RECEIVED APPOINTMENT TO CHICAGO'S REGULAR FORCE.

SOLE DUTY IS TO CATCH SHOPLIFTERS

Counselor for City Declared Miss Josie Sullivan Was Eligible and Chief Shippy Put Her to Work.

Chicago, May 13. — Chicago's first policewoman is Miss Josie E. Sullivan. She is a "special" and has all the powers, privileges and duties of a "regular." Her beat is limited to the state street department stores.

Miss Sullivan received her commission from Chief Shippey, afer he has received a legal opinion from Corporation Counsel Brundage, that her appointment was all right. Her principal duty will be to catch shop lifters. Miss Sullivan is provided with a star, whistle and patrol box key.

When Chief Shippy asked Mr. Brundage for an opinion on the appointment of a woman to the department he received a reply that should bring joy to the heart of every suffragist. Some points he decided were:

In construction of statutes and ordinances words imputing masculine gender may be applied to females.

No person shall be precuded or debarred from any occupation, profession or empoyment (except military) on account of sex, provided that this does not affect the eligibility of any person to an elective office.

This proviso contemplates that women as well as men can serve in appointive offices.

Women have been declared eligible to the office of superintendent of public instruction, master in chancery, attorney at law and others.

There is no express constitutional disqualification of females, no affirmative statement of qualifications which would exclude them, and there is nothing in the duties imposed by the statute law or city ordinance upon a peace officer which would imply the necessity or intended exclusion of either sex.

A few doses benefited her greatly and before long she was rid of the trouble." (Statement given in 1906.)

S.S.S. CURES SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acrid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin disease The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acrid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S. S. S. cures Skin Diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acrid blood, and permanently cures every variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S. S. S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Matters of Interest Picked Up From Various Sources For the Benefit of Democrat-Sentinel Readers.

Quite a Landscape Gardener.

"Johnnie" Hegerty, the popular West Main street caterer, has developed into quite a landscape gardener, as is evidenced by his work in the rear yard at his home. Sixth street and Missouri avenue.

Not only can he handle a lawn mower with as much skill as Dan Byard, but he can trim trees equal to George Fisher, and lay out a flower bed until it equals the best work of L. B. Hamilton in his palmiest days.

The fact is, had Mr. Hegerty started a little earlier in life he might have achieved a national reputation as a landscape gardener, this being the belief of Herman Loos, Aubrey Goin and others who have had an eye on his home work recently.

Frank Holdner, of the State Fair bar, has a pair of sugar tongs that he will dispose of almost at the purchaser's own price. Frank selected the tongs from a book of samples, and ordered them from a Chicago house.

MISSOURI COB PIPES BEST

Industry Which Is Annually Adding Thousands to Wealth of State.

Missouri produces annually 25,000,000 cob pipes, all made from cobs grown in Missouri, according to statistics gathered by the state board of agriculture. The corn cob pipe industry has come to be one of no small imporance to this state, and the "Missouri Merschaum" is becoming as famous as the Missouri mule or the Missouri hen.

The best cobs for pipes come from Missouri grown corn, according to pipe manufacturers. It takes a large cob of close texture to make a good pipe, and these cobs grow best in Missouri. Rich land and a long growing season are necessary to produce the right kind of cob. Within the past few years pipe manufacturers and corn growers have been breeding for good cobs for pipes. The counties leading in the manufacture of cob pipes are as follows: Franklin, Gasconade, Pike and Warren.

The cob sells for about $2.50 per thousand and should be close to two inches in diameter. From 2,000 to 3,000 cobs can be grown to the acre.

SALOON THOUGHT NO. 144.

Being Gradually Weeded Out.

A newspaper dispatch from Indianapolis makes the following announcement: A report that the Indianapolis Brewers' Exchange was trying to weed out 200 objectionable saloons here so as to cut down the total to 540, was denied today. Some of the brewers said, however, that the objectionable places are being weeded out gradually. The brewers are reported to have agreed not to start any more places here.

Now wouldn't that jar you? The Anti-Saloon League of Indiana has been at the business of "weeding out objectionable saloons" in that state for some time past. Something like 700 have been "weeded out" during the past three and a half months, and the brewers have not had much of a helping hand in the business either.

The "weeding out" process has, in fact, become somewhat general throughout the country, with the result that about 4,500 have been uprooted since January 1st, of this year. There probably is a streak of grim humor in the make-up of the brewer who told this Indianapolis newspaper reporter that "the objectionable places are being weeded out gradually."—American Issue.

COUPLE OF MEN WHO ARE PRISONERS IN THE PETTIS COUNTY JAIL.

IMPLICATED IN THE BUCKNER, MO., JOB?

Two Accomplices With Them on Arrival in Sedalia, but Disappeared Soon Afterward—Are Held for Criminal Court.

(From Wednesday's Daily.)

Arnette Patterson and his wife, Edna Patterson, and Frank Brennan, who were arrested here on May 3 for carrying burglars' tools, are now thought more strongly than ever to have been implicated in the robbery of the bank at Buckner, Mo., about March 20, when a snug sum was realized.

This information reached the police Monday, when it was learned that Brennan and Patterson were at Buckner on the day preceding the robbery and disappeared immediately after the bank safe had been blown. All efforts to locate the men failed until their arrest here.

The police have also learned that the prisoners had two accomplices, who were in Sedalia when Brennan and Patterson were arrested, although they occupied quarters different from those of Brennan and Patterson.

The other two accomplices are said by the police to have remained in Sedalia until they learned what disposition had been made of the cases of the men arrested They left then and have not been heard of since.

Patterson is said to have lived about seven miles south of Sedalia years ago. The woman, who poses as his wife, is remarkably shrewd and evades all questions in a manner identical to that evidenced by the men.

She greets the sheriff and jail attaches each morning, but that is the extent of her conversation.

Brennan, Patterson and his wife are held in the sum of $1,000 each for appearance in criminal court.

Special to the Democrat-Sentinel.

Boston, Mass., May 12.—Delegates and friends from Sedalia and Missouri here with the 10,000 railroad conductors at the annual convention of the Order of Railway Conductors are watching with much interest the battle that is being waged between C. E. Whitney, a prominent railroad man of Sedalia, who is chairman of the O. R. C. grievance committee for the M., K. & T. system, and W. W. Carroll, a railroad conductor of Peoria, Ill., for a place of the insurance committee.

Mr. Whitney is trying for re-election, but the Illinois man has never been on the committee and hopes to succeed Mr. Whitney.

The convention was opened yesterday by A. H. Garretson, president, from Cedar Rapids, Iowa.

The city is one mass of convention visitors, there being thousands attending other conventions besides the 10,000 with the conductors.

All sections of the meeting will be executive. President Barrett, of Union City, Ia., however, gave out a statement today, outlining the plans of the body.

"We have found a solution for one of the most important problems in the south," said President Barrett, "the handling of the cotton crop to the best interests of the grower."

He declared the Farmers' union was in no sense a trust, but an amalgamation of warehouses.

"Having solved the cotton problem," he continued, "we have turned to the assistance of the middle west. The solution found in the south will be the basis of our work here."

WRONGED BY HER LOVER

SWEETHEART WAS IN HIS ARMS WHEN HER FATHER SURPRISED THEM.

THE LATTER WAS THEN SHOT AND KILLED

Swain Says He Had to Kill or Be Killed—Young Beauty Testified Against Him in the Trial at Mt. Vernon, Georgia.

Mount Vernon, Ga., May 11.—Jordan Swain, member of a prominent family, has been placed on trial here, charged with having killed W. C. Beasley, when the latter discovered him embracing his young daughter, Miss Edna Beasley.

Immediately after the killing young Swain fled to Louisiana, but was extradited and brought back for trial. He admitted he killed Beasley, but says he had to kill or be killed

The feature of the trial yesterday was the evidence of Miss Edna Beasley, a 17-year-old beauty, who related the circumstances under which her father was shot to death. The girl said that she and Swain were lovers and that he had promised to marry her. On the night of the tragedy she and Swain left to attend a dance at a neighbor's house.

"Soon after leaving," Miss Beasley said, "Swain put his arms about me and forced me into a compromising position. When we were in this situation we were discovered by my father, who evidently had followed us.

"My father cried out: 'Oh, my God!' As my father cried out Mr. Swain sprang from the ground, drew his pistol and shot father four times. As father fell he cried to Mr. Swain: "'You have wrecked my daughter's life and taken my own.'"

The girl told her story between sobs and she once collapsed.

As the girl told her story Swain watched her closely, but did not seem to be affected by her distress.

On cross-examination Miss Beasley admitted that she had loved Swain, but said she was forced into the compromising situation on the night her father was killed, and since then she had no love for the defendant.

Half a dozen of the leading lawyers of Georgia are engaged and the case will be fought bitterly.

WOMAN CAME HERE TO MARRY

Instead, She May File a Suit for Heavy Damages.

(From Wednesday's Daily.)

A middle-aged lady, a resident of Kentucky, today sought the services of a well-known lawyer to institute suit for damages against a man named Wade, of this city, for failure to carry out his contract, after advertising for a wife in a matrimonial journal.

The lady arrived here Tuesday. She came in answer to an advertisement inserted in a matrimonial journal by the Sedalian for a wife. On reaching Sedalia and looking up the street address she learned that the advertiser is an old man, a widower, and has a house full of children.

Under the circumstances, she preferred not to marry him, and immediately sought the services of a lawyer to bring suit for damages. The attorney in question refused to handle the case.

What the outcome will be remains to be seen.

A TIMELY SUGGESTION.

The commencement season is at hand, and in schools and colleges all over the country preparations are under way for the exercises and the functions which are to mark the completion of school courses. It is but natural that students and faculties should regard the event as important. It deserves to be observed with dignity and impressiveness. Nor can there be any reasonable objection to the social festivities that usually accompany the occasion, provided they are not of an extravagant or objectionable character.

While the tendency of simplifying graduation programs has been noticeable, it is unfortunate that there has been less moderation and simplicity in the accessories.

The graduation gown has become a creation that sorely taxes the pocketbook of the parent. Gifts and floral tributes from relatives and friends have frequently become burdensome. The class memorials to the schools have often taken the form of expensive art works.

In every class there are members whose parents have difficulty in meeting the ordinary expenses incident to the education of their children. Upon these the burdens of commencement time fall heavily. Needless sacrifices are made to spare their children the humiliation of not appearing as well attired as the rest, and to pay their share of the class expenses for celebration.

School boards have it in their power to insist upon simplicity and moderation in graduation exercises. The cap and gown is a solution of one phase of the difficulty.

Rigid rules against flowers and gifts, for simplicity in the attendant social events, against expensive memorials will eliminate most of the remaining abuses. — School Board Journal.

BE A BOOSTER.

The following editorial admonition from the Columbus (Ohio) Dispatch is worthy the careful consideration of every Springfieldian who is interested in the progress of this the best town this side of the New Jerusalem:

"Whatever else you are in life, be a booster. Select from the multitude of causes that are brought to the attention of every man in active life those that are meant to accomplish good, and then, as it is possible, lend aid to all of them. No man ever got the most out of life who was not a booster of good things—a booster of his own business, whether his position is that of employer of employe, and a booster of the other good things that he may find strewn along his path. Do you know a booster when you see him? Of course, you do. Anybody can identify such a one. There is a smile on his face, an air of confidence in his manner and a lot of sympathy, if there is call for it, in his speech.

"The booster is the salt of the earth. He wars on the evil by promoting the good. He makes sunshine in the cloudy days and turns fears back into laughter. He helps himself, but he helps others as he can, and, when his boosting days are over and he goes to the dust from which he sprang, the world is better for his having been in it."

These sentiments are freighted with a peculiar appropriateness to Springfieldians at this particular period in its history, when it is reaching out for skyscrapers, interurban roads, the Pythian home, fine streets, white ways, city limits extensions and a multitude of good things too numerous to mention.

The Republican repeats the petition of the Ohio paper, "Lhatever else you are in life, be a booster.

The above from the Springfield Republican can well be read and taken to heart by every citizen of Sedalia.

THE PRACTICAL SIDE OF THE PEACE MOVEMENT.

A few year ago world peace advocates were regarded as idle dreamers. Today the principles they advocate and the purposes they have in view are making a profound impression upon the peoples of all nations. Governments are interested in the universal peace movement and have regularly accredited represetatives at all important gatherings, national and international, of this character.

But the greatest progress the peace campaign is making lies, we think, in the influencing of public opinion, which appears to regard its methods with increasing favor year by year and to accept with growing conviction the practicability of the end sought.

The national peace congress which has just adjourned its Chicago meeting was largely representative of public opinion in the United States. The discussions there engaged in and the resolutions adopted reflected in large measure the sober views of the people of the country.

Particularly impressive is the declaration of the congress against the policy of aspired naval supremacy, which today dominates practically every world power in its international attitude. The folly of nations attempting indefinitely to surpass each other in armament and ships and fighting equipment is impressively set out. Already this strife for supremacy is burdening the tax payers of America, where militarism has finally spread from Europe. The army and the navy tax which the people of the United States bear today is approximately a quarter of a billion dollars, of which the greater portion is dedicated to the latter.

Each year the military budget experiences mushroom growth. We are building battleships at a great rate. Nothing but dreadnaughts will suffice today, and in a few years it will be necessary to eclipse even these monsters. By that time most of the older ships will be ready for the junk heap and will have to be replaced by new ones.

The development of the airship offers fresh latitude for increasing the terrors of war and for sinking money into rival preparation.

Practical men see the impossibility of keeping up the mad pace forever. There must come a time when the wealth of even the richest nation will no longer support the contest, and long before that time the masses, the consumers, who pay the bulk of the tax, will be in revolt. Moreover, commercial considerations are beginning to weigh powerfully on the side of peace. These factors combined will eventually reduce the possibility of war to a minimum, and it is not wholly improbable that they will eliminate it altogether.

TWO DEAD IN HOTEL ROOM

Matching Coins to Determine Which Should Kill the Other.

St. Louis, May 10.—The bodies of Mrs. Anna Reed, aged 30, and Joseph Baker, aged 55, were found in a room at No. 2632 Olive street Saturday. Both had been shot through the head, but the police were unable to determine whether it was a double suicide or whether one of them fired both shots.

Baker was formerly a county officer at Flat river, Mo. The woman was a resident of St. Louis, but had separated from her common law husband, Reed.

Employes of a restaurant formerly kept by Baker told the police that they had frequently seen the couple match coins to determine who should kill the other before committing suicide.

FATHER TRACY, OF ST. LOUIS, IS SENT TO A RURAL HAMLET CHARGE.

PARISH DEEPLY REGRETS THE CHANGE

The Children of Good Counsel Church Grieve at Loss of Their Pastor —He Was Quite a Noted Baseball "Fan."

St Louis, Mo., May 10.—St. Louis Catholics were greatly surprised yesterday to learn that Father J. A. Tracy, the most ardent baseball enthusiast among the city's clergy, had been relieved of his charge as pastor of the Church of Our Lady of Good Counsel, Eleventh and Destrehan streets, by Archbishop Glnenon, and assigned to the church at Byrnesville, Jefferson county, Mo. Byrnesville is twelve miles from a railroad, and has a population of about 150.

The Church of Our Lady of Good Counsel is one of the important charges in North St. Louis. Father Tracy is known to every patron of baseball and other outdoor sports by reason of his constant attendance at the National and American league games.

The announcement was made at yesterday morning's masses at the Church of Our Lady of Good Counsel. The parishioners received the news with many expressions of regret.

The children particularly, over whom Father Tracy is said to have great influence, joining with them in their sports as well as in their lessons, were so affected that they begged the privilege of being allowed to present a petition to the archbishop requesting the reinstatement of Father Tracy. In this they were warmly seconded by many of the mothers

THE GUESTS PLAYED EUCHRE

Entertained By Mr. and Mrs W. E. Bard Monday Night.

Mr. and Mrs W. E. Bard, at their beautiful home on West Sixth street, elaborately entertained a large number of friends Monday night, the guests of honor being Mrs. M. D. Wilson, of Lexington, and Mrs. A. M. Woodson, of Jefferson City, who are visiting Mrs. Bard, and Mrs. J. C. Van Riper and daughter, Lean, of St. Louis, who are the guests of Mr. and Mrs. John T. Heard.

Cards were played during the evening, euchre being the game. At the conclusion, Miss Christine Spencer and Mrs. J. S. Brenneman were each found to have a score of eighteen games, and in cutting for the prize, Miss Spencer was the more fortunate and won a very pretty beauty pin.

Mr. C. W. Flower and Mr. L. L. Ilgenfritz tied for the gentlemen's prize, each having a score of sixteen games, and in the cut, Mr. Ilgenfritz was the lucky one, he receiving a tie holder.

Beauty pins were given to the guests of honor as prizes.

Champagne punch was served during the evening. It was made by the genial host, Mr. Bard, so no more need be said in its favor.

After the card play had ceased, delicious refreshments of salad, hot rolls, olives, coffee and confections were served, after which the guests retired to the parlor and there listened to Mrs. Bard's Victor victrola.

It was a late hour when the party broke up, and the merry conversation and hearty laughter until the last minute was proof positive of the good time had by all.

A Picture of Mr. Van Riper.

The St. Louis Star-Chronicle of Sunday printed a splendid picture of J. C. Van Riper, a former Sedalian, who last Saturday was elected president of the Title Guarantee Trust Co., of St. Louis. The picture is true to life, and was recognized at a glance by "Van's" Sedalia friends who saw it.

St. Louis Live Stock Market.

Special to the Democrat-Sentinel.

National Stock Yards, Ill., May 11.—Cattle receipts today 2,500. The advance realized a week ago has been productive of increased receipts at all points, and we are pleased to say demands also have improved, and at this writing all classes excepting steers good enough to sell above $5.50 are selling fully steady with a week ago, while good to choice steers have improved 10 to 15c per cwt. Most of that kind are selling now at $6.25 to $7.00; medium, $5.50 to $6.50. Good to choice heifers, $5.50 to $6.50; medium at $4.50 to $5.25. Good to choice cows, $4.75 to $5.25; medium, $4.00 to $4.50. Good to choice milkers, $45.00 to $55.00 per cow and calf; top vealers, $7.25. Demands for stockers and feeders also exceeded supplies of that kind, and the market holds firm. We think the outlook for the coming week is very satisfactory, and at the present time the St. Louis market seems to be higher than any other. Cattle for which we were offered $6.60 here last Friday were forwarded to Chicago by the owner and sold there today at $6.20 to $6.55, or an average of about $6.45.

Hogs receipts today 13,000. Packing hogs sold 5 to 10c lower than yesterday and pigs 15 to 25c lower. Good butchers and heavy hogs held steady; top, $7.35, with practically all the good heavies at $7.25 to that price. Mixed and butchers at $7.20 to $7.30; packers, $6.95 to $7.15, and good pigs at $6.40 to $6.75; bulk of all the hogs sold at $7.00 to $7.25. Prospects about steady.

Sheep receipts 2,000. Good sheep and lambs steady; medium and common grades 10 to 15c lower; top spring lambs, $9.50; top clipped lambs, $8.25; top wethers, $6.75, and top ewes, $6.50. In our opinion this is a very good time to ship all fat stuff.—National Live Stock Commission Company.

Whereas, William H. Woods and Sallie Woods, husband and wife, by a deed of trust dated July 28, 1904, and recorded on the 20th day of August, 1904, in the office of the recorder of deeds of Pettis county, Mo., in book 164, on page 23, conveyed to the undersigned in trust to secure the payment of a note and interest in said deed of trust particularly described, the following described real estate, situated in Pettis county, Missouri, to-wit:

A part of the southwest quarter (¼) of section No. three (3), township No. forty-five (45), range No. twenty-one (21), to-wit: Beginning at the intersection of the east line of Lafayette avenue with the north line of Broadway, in the city of Sedalia, thence running north with the east line of Lafayette avenue one hundred and twenty (120) feet, thence east parallel with the north line of Broadway to the west boundary line of the Sedalia, Warsaw and Southern Railway company's right of way, thence in a southwesterly direction along the west line of said right of way to the north line of Broadway, thence west with the north line of Broadway street to the beginning.

And, whereas, interest past due and taxes delinquent and the improvements thereon in a dilapidated condition, described and secured by said deed of trust, has not been paid, and whereas, the owner of said note and coupons has requested me to execute the power vested in me by said deed of trust, to sell said real estate and out of the proceeds of said sale pay the indebtedness secured thereby.

Henry Lamm, trustee, named in said deed of trust, being now out of the county, therefore in compliance with said request and in pursuance of the power vested in me by said deed of trust, I will sell said real estate at public vendue to the highest bidder for cash on the fourteenth (14th) day of June, 1909, at the front door of the court house, in Pettis county, Mo.

Refused to Sign Information.

(From Tuesday's Daily.)

Prosecuting Attorney H D. Dow today refused to sign the information in the case of Bert Wright, a negro, charged with disturbing the peace of E R. Adams, ex-deputy constable, and the case was turned over to the police for prosecution. Mr. Dow's argument is that Adams is a police officer, whose peace cannot be disturbed.

PRIEST NOT TO DESERT

ST. LOUIS BASEBALL TEAMS AT TIME HIS PRESENCE IS NEEDED.

FATHER JOHN A. TRACY TO STAY IN CITY

Proper Medical Attention Could Not Be Had in Remote Hamlet, So He Will Remain in St. Louis for the Present.

St. Louis, Mo., May 11.—Father John A. Tracy, rector of the Church of Our Lady of Good Counsel, Eleventh and Destrehan streets, militant priest and the most famous clerical baseball fan in the country, says flatly that he will not be retired to a backwoods parish, though the archbishop has so ordered, as told in a dispatch Monday.

He will stay in St. Louis long enough to witness a number of baseball games and see that the Browns pull themselves out of the hole by climbing over the visitors from the east.

Incidentally he will look after his health, which has been failing for some time. He will step out of his parochial residence Saturday, but he will not start for the country. He has written to Archbishop Glennon to that effect.

"Now I am going to sit on the top of the grand stand out at the ball park and root for the Browns and go and see my doctor and get well," he said to a reporter Monday.

He has received notice from Archbishop Glennon that he has been transferred to the chapel of a convent at Byrnesville, Jefferson county, Mo., and the charge of a hamlet of forty-five persons.

When he broke the news to the children of his congregation, there was an affecting scene, in which the children wept, and the priest was obliged to retire from his pulpit overcome with emotion.

Sunday he preached his farewell sermon. After the sermon the congregation held a meeting and passed resolutions expressing their high regard for their pastor and protesting against his removal, while the children signed a petition to the archbishop asking that he be not taken away from them.

"It will be impossible for me to go to the charge to which the archbishop has appointed me," said Father Tracy to a reporter Monday. "I am under the care of a physician and am too ill to be taken away from his care. I shall stay with friends in St. Louis until I am better, and, perhaps, in July I shall take an ocean voyage. Anyhow, I shall see a few more baseball games.

"If this means retirement for me, I have a beautiful home waiting for me in Clarksburg, W. Va., furnished all ready for me, with a loving sister and a lot of nephews and nieces who will keep my pipe filled for me. I have owned it for some time, and it is all mine.

"There are no charges against me. I suppose I am being relieved on canonical grounds. I have never been ordained to this parish. I was adopted here by Archbishop Kane nine years ago. I asked for relief from the parish a year ago, but did not receive it.

"This is a poor parish, and I suppose the archbishop wants to reduce the force, which would mean a saving of $700 a year. I am now 58 years old, and have been a priest thirty-three years, and in this parish nine years. There is only one merchant in the parish, all the others are working people.

"Holy Trinity parish, the big German church at Eleventh and Mallinkrodt streets, is rich. My people have needed me and we have grown very close to one another. It has been a work of life and love to teach the children, and it is awful hard to leave them. When I parted from my mother it was not harder than to say goodby to the little ones here.

"I bought this house, 1114 Destrehan street, for $4,000, of which $2,800 is paid, and I made the first payment on it of $1,000 from the sale of a little mare I owned. Then I turned it over to the church.

"They say I am a baseball fan. Well, I guess I am. I narrowly escaped being a professional baseball player myself. In 1869, '70 and '71 I played ball on the team of St. Vincent's college, of Wheeling, W. Va., and might have gone with the Cincinnati Reds. Harry Wright wanted me to sign to play left field. We played teams all around our part of the country and Wright knew what I could do as a sun player.

"In those days we played for catching flies and the man who made the best record at catching men out was better than he who made runs. I had an old score book of 1869 of a game we played in which the score was 75 to 48, and the scorer had written at the bottom, 'very fine game.' When I started to play ball I was a puddler in a rolling mill."

IN HONOR OF VISITORS

Society Function at Country Club Rooms Monday Afternoon.

(From Tuesday's Daily.)

Of the many social functions that have been given recently none possibly was more enjoyable than the reception given by Mr. and Mrs. Jos. H. Rodes yesterday afternoon, between the hours of 4 and 6 o'clock, at the Country club.

The rooms of the club are most fittingly suited for an entertainment of this character. They were decorated with pot plants and flowers, the tea room being especially bedecked for this occasion with an immense Japanese parasol, Japanese lanterns and other Japanese effects.

The table was profusely decorated with begonia blossoms, and fine Ceylon tea and wafers were served by Misses Bess Doyle, Pauline Hickerson and Beulah Rodes, the last named being the young and attractive daughter of the hospitable hosts of this occasion. These petite misses were most bewitchingly gowned in the most approved and up-to-date Japanese costumes.

Miss Estill and Miss Skinner presided most charmingly at a table from which delicious ice cream and cake were served, and Misses Hattie Gold and Minnie Hickerson were the gracious dispensers of an excellent quality of fruit punch. The Misses Kuhn discoursed sweet music throughout the entertainment. All in all it was a most pleasantly managed party, and was complimentary to Mrs. J. C. Van Riper and her daughter, Miss Leah, of St. Louis.

The feminine portion of Sedalia's 400 were there in full force, and were gowned most attractively, some of the costumes being especially beautiful.

The affair was evidently intended for ladies only, but three or four society dudes managed to pass the doorkeeper.

MR. WHERLEY ASKS DIVORCE

Petition Filed in Circuit Court Late Monday Afternoon.

(From Tuesday's Daily.)

James Vest Wherley, a prominent farmer living west of town, late Monday instituted suit in the Pettis county circuit court for a legal separaton from his wife, Jessie S. Wherley. W. D Steele is plaintiff's attorney.

The couple was married in this county on June 5, 1907, and lived together until May 7, 1909.

Wherley alleges that his wife was cold and indifferent towards him. According to his allegations, Mrs. Wherley told him she did not love him; never did love him; was going to leave; would never live with him again; never wanted to speak to him again, and never wanted him to speak to her again.

ELMER MURRAY'S MISHAP

Poultryman No Longer Poses as an Expert Chauffeur.

(From Tuesday's Daily.)

Elmer Murray, the genial poultryman, who recently decided he possessed the ability of a chauffeur, met with a rather distressing accident at 8:15 o'clock last night, just as he was preparing to put up his machine for the night.

He had been "outoing" on Broadway, where the thoroughfare is ample wide to permit of an inexperienced chauffeur to operate a machine, and after motoring from Ohio to Grand on that street without hitting anything or anyone he conceived the idea that he was on a par with any of them.

Harboring this hallucination, Elmer drove his machine up the driveway at his home and started to run it into his private garage.

He succeeded nicely until he reached the building. Then, "crash," "crash," "crash."

Elmer at first was afraid to look, but on regaining his composure he discovered that instead of entering the garage through the door he had attempted to run through the woodwork, with the result that he smashed the large glass shield that acted as a face protector into a thousand pieces.

PASSED THE FIFTY MARK

COL. CHARLES McENIRY, OF THE 12-MILE ROAD DISTRICT COMMISSION.

WAS GIVEN A SURPRISE MONDAY NIGHT

A 7 O'clock Dining Arranged by Mrs. McEniry in Honor of the Fifteenth Anniversary of Birth of Her Husband.

(From Tuesday's Daily.)

Col. Charles McEniry, a member of the board of 12-mile road commissioners, reached the fiftieth milestone on the journey of life yesterday, and last night he was given a truly agreeable surprise at their elegant home, 1000 West Fourth street, thanks to his good wife.

Birthdays come and go with scarcely a thought on the part of business men, and so it would have been with Col. McEniry yesterday had it not been for the thoughtfulness of Mrs. McEniry.

The afternoon was spent by Col. McEniry at his model farm north of town, but at 6:30 p. m. he came into the city at a 2:30 clip behind a spirited stepper, only to learn that it was the anniversary of his birth and that he was expected to be host to a small company of friends that Mrs. McEniry had invited to a 7 o'clock dining, in honor of the occasion.

Almost as quick as one could say "scat" Col. McEniry was ready to welcome the guests of the evening, and a little later all sat down before a splendid menu which Mrs. McEniry had prepared, nearly an hour being spent at the festal board in disposing of the substantials and delicacies, coupled with social converse.

The meal disposed of, the gentlemen adjourned to the smoking room, where fragrant Havanas were enjoyed, while the ladies discussed the Knights of Columbus banquet to be given next Sunday and other subjects of interest.

Later, cards were indulged in, and when the guests took their departure each and every one expressed the wish that Col. McEniry might live to celebrate at least another one-half hundred anniversaries, and that neither he nor any member of his family might know a care or a sorrow in the meantime.

DEATH OF MRS. THORNTON

Burial Service at the Longwood Presbyterian Church.

(From Tuesday's Daily.)

Mrs. Mary B. Thornton, whose maiden name was Cummins, wife of Marion B. Thornton, a farmer living at Blue Lick Springs, twelve miles northeast of Longwood, died at 10:30 o'clock last night, following a shock sustained by the burning of their home on Saturday, May 1. Had she lived until October next, Mrs. Thornton would have been 63 years of age.

The deceased is survived by her husband and four daughters, as follows: Mesdames Leslie Lower, A. U. Harvey and Leslie Johnson, all of Hughesville, and Miss Annie, who lived at home. Two sisters also survive, viz.: Mrs. Wat Woodson, of Kansas City, and Mrs. C. R. Gorrell, of Sedalia.

Mrs. Thornton was a member of the Presbyterian church and was a most estimable Christian woman, loved by all who knew her.

The Rev. Watson will conduct the burial service at the Presbyterian church in Longwood at 11 o'clock Wednesday morning, and the interment will be in the Hopewell burial ground.

"JOHN ORTH" IS FOUND

Chicago Paper Says It Has Discovered Long Missing Archduke.

Chicago, May 11.—The Journal of this city today devotes its entire front page to the unequivocal statement that it has discovered "the lost John Orth," otherwise Archduke Jeann Salvator, of Austria, who disappeared nineteen years ago.

According to the Journal, Orth was discovered at Painesville, O., working as a machinist, and his advancing age and desire to be buried in Austria prompted him to make his identity known.

The prisoners were shaved at the county jail by a barber summoned there for that purpose, after which they were taken to Latour's photograph gallery.

A "photo" will be taken of Edna Patterson, wife of Arnette Patterson, as soon as she recovers from her illness.

A REVOLVER WAS FIRED

WHILE TWO MEN WERE PEERING INTO A WINDOW OF C. T. WHISMAN'S HOME.

WEAPON WAS ACCIDENTALLY DISCHARGED

Frank P. Baird Met the Two Men and Anticipated Attempt to Hold Him Up—Were Seen Again This Forenoon.

(From Tuesday's Daily.)

Two men, evidently of foreign descent, one tall and rather stout in appearance asd the other of small stature, were possibly interrupted in their attempt to rob a residence on West Fourth street last night at 9:15 o'clock by the appearance of F. P. Baird, the insurance agent, who was returning home at that hour.

The men were standing on the northeast corner of Fourth street and Kentucky avenue at the hour stated. One stood in the middle of the sidewalk with one hand in his pocket, presumably holding a revolver. The other, the smaller of the two, stood about two feet away, off of the sidewalk.

When Mr. Baird approached the two men he noticed the taller man with his hat pulled down over his eyes, as if prepared to hold him up. Mr. Baird thrust his hand into a hip pocket and stepped to one side of the sidewalk as he passed, at the same time keeping his eye on the man.

After passing the two, and when several feet away, Mr. Baird turned around to see where the men had gone. Both had entered the yard of C. T. Whisman, who resides on that corner. Both were near a window, looking into the interior of the house.

Mr. Baird had gone about seventy five feet west from where the men were standing, when suddenly a pistol, held by one of the men, was discharged, while they were looking in the window of Mr. Whisman's residence.

The report was extraordinarily loud. Neighbors in the locality and within a block of the corner rushed from their homes to ascertain the cause, but as soon as the gun was discharged the strangers ran to Osage avenue, going south on that thoroughfare.

Early this forenoon the two identical men passed the same corner twice, sizing up the situation, in the manner of burglars preparing to carry out their plans.

DUKE TRIED TO SUICIDE

Italian Who Wanted to Marry Miss Elkins Is Very Despondent.

Rome, May 11.—Sensational stories, apparently founded on good authority, have reached the government from India with reference to the Duke of Abruzzi. One report declares that the duke, in one of the fits of depression to which he has been subject of late, attempted to shoot himself, and that only the watchfulness of his attendant prevented the act.

Passed Over Lead Schedule.

Washington, May 11.—When the tariff bill was taken up by the senate today, Senator Aldrich stated that the committee on finance would submit to the senate a different scale of duties on zinc ore and products of zinc and asked that this schedule as well as sections relating to lead products be passed over for the present. The request was conceded, Bristow announcing that when the white lead schedule should be reached he wishes to be heard on it.

Fred L. Ludemann was today advised that his sister-in-law, Mrs. John D. Ludemann, of Kansas City, Kas., was elected chief of honor of the Degree of Honor of the Sunflower state, in session at Lawrence, Kas., on May 7th.

There were four contestants for the office, which pays a good salary, but Mrs. Ludemann won over the combined opposition—an honor that is appreciated by her friends in Sedalia as well as those in Kansas.

Mrs. Ludemann was formerly Miss Mattie Newman, of this city, and her husband was for several years a contracting painter here.

BLACK EYE FOR THE "DRYS"

It Looks as if Statewide Prohibition Was Doomed.

Jefferson City, May 11—Without debate, and on a viva voce vote, the house today refused to concur in the senate amendment to the statewide prohibition resolution, and sent it back to the upper house, asking that body to recede.

The senate probably will decline to give up its changes, and a conference committee undoubtedly will be necessary.

John Jaeckles Figured in a Runaway Accident.

(From Wednesday's Daily.)

John Jaeckles, one of the guards of the county prisoners, living one mile west of Georgetown, is laid up at his home with a dislocated right shoulder blade, the result of a runaway accident Monday evening.

Constable Jaeckles and his 12-year-old daughter, Katie, were driving to their home Monday evening in a buggy, pulled by a gentle family horse. A strap broke, frightening the animal, on the D. H. Smith hill, causing it to run away.

The animal ran across the bridge on that road and just after passing it upset the vehicle, throwing the occupants to the ground. The buggy was smashed and Mr. Jaeckles sustained the foregoing injury, while his daughter escaped unharmed.

A PUBLIC HEALTH MEET

DR. J. N. McCORMICK LECTURED AT COURT HOUSE LAST EVENING.

MAGNIFICENT AUDIENCE WAS PRESENT

His Timely Subject Was: "Why and How Good Health Should Be Made More Contagious Than Sickness."

(From Wednesday's Daily.)

A large audience composed of representative citizens heard Dr. J. N. McCormick, of Bowling Green, Ky., lecture at the court house last night on "Why and How Good Health Should be Made More Contagious than Sickness."

The speaker was introduced by Mayor Babcock and for two hours held the entire attention of his audience.

Dr. McCormick is one of the leading physicians and surgeons of his Board of Health of Kentucky for the most of his time for the past eight past thirty years, and has devoted most of his ime for the past eight years to his present work.

His talk was interesting because he spoke the truth, because he spoke entertainingly and convincingly, giving facts and figures to prove his arguments, because he struck out fearlessly, exposing sins of omission and commission, hitting a head wherever he saw it, then pouring the oil of kindness and humanity upon the wound he was compelled to make. His object in making these exposures was not merely to criticise, but primarily to bring the facts before his audience. that they could think of and correct them.

He went over the different professions and pointed out the envy and jealousy of individual members that has militated against harmonious action and barred the way to progress. He showed that this jealousy and envy had been handed down to us through the ages. Happily for us, however, we have passed through the worst of this slough, and are now being wafted to a brighter shore on a reform wave. the like of which has never been seen before in the history of the world.

The real doctors are organizing and working together for their own advancement and for the cause of humanity, and the great science of the prevention and cure of diseases is going forward by leaps and bounds.

Statistics show that there are an average of 1,500,000 deaths in this country annually, with 4,200,000 cases of sickness, affecting the comfort and material prosperity of 5,000,000 homes and 25,000,000 people. We know that by proper living and care one-third of this enormous sick and death rate, a tax upon the people almost beyond calculation, is distinctly and practically preventable.

An an argument for better and healthier living, the doctor produced facts to show that 750,000 persons have died of tuberculosis in the United States within the past five years, and probably over 1,000,000 are constantly sick with it; 250,000 died from typhoid fever, with probably 2,500,000 sick from it in the same period, with a large sick and death rate from diphtheria, cholera infantum, dysentery, scarlet fever, measles and other diseases preventable in a large measure with present knowledge

It was then shown that within the last ten years our national government has expended $40,000,000 and now proposes to spend $250,000,000 more for the extermination of tick fever in cattle; cholera in hogs and chickens; scab in sheep; pests to crops and trees, and for the protection of the interests having money value, while in all its history it has never lifted a hand to protect the people from these far more important domestic pestilences.

The doctor made a special plea for the future of our girls and boys, and from beginning to close his remarks commanded the undivided attention of his audience.

This forenoon Dr. McCormick talked to the students at the High school and also to the members of the Pettis Couny Medical socley at the court house. He left this afternoon for Higginsville.

HE IMPLICATES AN UNCLE OF THE BOY

James H. Boyle Declares His Wife Was Duped and Says Mrs. Whitla's Brother Was Instigator of the Awful Crime.

Pittsburg, Pa., May 11.—James Boyle and his wife, kidnapers of Willie Whitla, were placed in the Western penitentiary here last night, following a day of sensational developments.

Starting with a life sentence for Boyle and twenty-five years for his wife, Helen, both collapsed and were carried from the Mercer court room to jail. Later in the day both recovered, and Boyle gave out a remarkable signed statement in which he named Harry Forker, a brother of Mrs. Whitla, as an accomplice in the kidnaping, admitted he was guilty of blackmail and declared his wife innocent of wrong, saying he had duped her and had been duped.

Forker denies any connection with Boyle or his wife, while James P. Whitla declares his statements, so far as he is concerned, false. Investigation of other declarations of Boyle have been made, but his allegations cannot be verified.

Arriving at the penitentiary, the prisoners were taken to a side room and told that they would have to say goodby, as the rules of the prison would not permit them to see each other again.

Mrs. Boyle threw her arm around "Jimmy's" neck and kissed him.

"We must take it the best we can."

Boyle and Wife Separate.

The prisoners then shook hands and the matron escorted Mrs. Boyle from the room. When she reached the corridor she burst into tears and asked to be permitted once again to see her husband. The request was granted and she again kissed and embraced Boyle. The man maintained his silence and had nothing to say.

When Mrs. Boyle gave her belongings to the matron, she asked permission to keep a small mirror she carried, saying: "I do not want to leave it behind, as that would make me have seven years of bad luck."

The mirror was returned to her and she will be allowed to keep it in her cell.

Boyle's number at the penitentiary is 6631A, and that of his wife 6632A. The prisoners will be photographed today and Bertillion measurements of them will be taken.

Tries to Cheer Husband.

During the trip from Mercer, where they left late last afternoon, the kidnapers spent most of the time in quiet conversation together. They discussed the sentence, which they allege was unjust, and what steps they would have to take to get a review of the case and how to see an attorney.

Mrs. Boyle tried to cheer "Jimmy" and wanted to know if he would be permitted to smoke at the penitentiary.

When asked how she felt Mrs. Boyle said, "Pretty bad."

On arriving in Pittsburg she remarked: "It seems to be colder here than in Mercer, but Mercer will sleep quieter tonight—sleepy old Mercer—since we are out of it."

Mr. and Mrs. Boyle sat together and held each other's hands during the entire journey here from the scene of their trial.

Sheriff Chess said he was glad to get the prisoners out of his custory, as he was afraid they would be successful in their announced intention to commit suicide.

The sheriff stated he believed Boyle had intended to kill his wife and then commit suicide with the razor the sheriff found in the kidnaper's tie yesterday. Neither prisoner would deny that this was true.

The statement given out by Bole in Mercer follows:

By James H. Boyle, Monday, May 10, 1909.

The complete history of the kidnaping of Willie Whitla, the origin of same and what led up to it.

On the morning of —— —— —— between the hours of —— —— Dan Reeble, Jr., was found dead on the sidewalk in front of the Mauser block, East Federal street, Youngstown, and over the prostrate form was Mr. Harry Forker, of Sharon, Pa., holding in his right hand a package of letters that was gathered from the sidewalk near the dead body of Mr. Reeble.

As he was about to depart from the vicinity he was intercepted by the writer and a man who has since passed to his reward, Mr. Dan Shay, a saloon keeper of Oak street, Youngstown, Ohio.

In Mr. Forker's hurry to leave the scene he failed to find two envelopes that contained four letters. The same were picked up by Mr. Shay and later taken to his place of business on Oak street.

The writer and Shay examined and read the contents of same, which proved beyond a doubt the presence of Mr. Forker there at that time.

Letter by Woman, He Says.

The letters were written by a lady, two from a party in New York state and the others from Cleveland, Ohio. At a later date Mr. Forker was apprised of the fact that the writer held these letters in his possession, and asked if he could use the same. A letter was immediately sent the writer by Mr. Forker, stating that he (Mr. Forker) would like to have a personal talk with the writer, which meeting took place a day or so after. Mr. Forker acknowledged he would pay a sum of money for the possession of said letters. The amount, not being considered sufficient, was refused, and from that day on and up until March, 1908, the writer, on the pretext of exposing the letters and the coincidence of Mr. Forker being discovered bending over the prostrate form of Mr. Reeble, had received at different times amounts of money from Mr. Forker to remain silent.

About six months ago, when I returned to Sharon with my wife I met Mr. Forker on East State street, and informed him that unless I received $6,000 between then and the time I intended to leave Sharon, I would hold the secret no longer.

He then informed me that it was impossible for him to get that amount of money, but some time in April, 1909, he was to come in possession of a certain sum of money, and would then turn same over to me, which was satisfactory at that time.

On my leaving Sharon on March 12, 1909, I proceeded to Cleveland, O., and the same evening I addressed to Forker, No. 2449 East State street, Sharon, Pa., a letter which read as follows:

Signs Himself Bailey.

"Mr. Harry Forker, Dear Sir: I have decided not to wait any longer in regard to the money proposition, and if I don't hear from you soon there will be some exposing. Sincerely yours.—J. J. Bailey, Cleveland, O."

On March 16,1909, I received an answer to the same which read:

"Friend Bailey: You knew the circumstances and the promise I made you when you left here, but if you really are desperately in need of money, as you profess to be, I will outline a plan which, with your cooperation, can be very successfully carried out, viz: The abduction of J. P. Whitla's son. I can arrange to have boy brought to Warren, O., due there at 11:18, with escort." (There is no signature to the letter.)

I left Cleveland at 8:15 a. m. and arrived at Warren at 10:06 a. m., and then proceeded to Niles, O., by street car. I boarded an Erie train and arrived at Warren at 11:18 a. m., but failing to see the boy and his escort, I got off at Warren and remained in the vicinity of the depot.

About ten minutes later boy and escort arrived and I was then informed that they drove from Sharon to Warren. I informed party to take boy along Pittsburg and Western track, leave him there and I would attend to the rest of it, which he proceeded to do.

Takes Boy to Cleveland.

After making inquires as to the next train to Cleveland, I brought the boy to Niles, O., from there to Ashtabula and then to Cleveland. On March 22 I received a letter from Mr. Forker, stating that some one had informed Mr. Whitla that they had recognized his boy on March 18, in Niles, O., and that James Boyle, of Sharon, was with him; also that Mr. Whitla was afraid to divulge the information for fear that the boy might come to some harm, and telling me to be careful and be on the alert, and that when I received the money to immediately surrender these Youngstown letters, to send same to him (Mr. Forker) at Sharon, and on Tuesday April 23, to return half of the ransom money to him (Mr. Forker) and he would turn over the same to the party who took Willie Whitla to Warren.

Upon learning that my name was mentioned in connection with the case, I made it a point to meet Mr. Whitla personally in Cleveland, at Fifty-third street and St. Clair avenue, showed him letters that passed between Mr. Forker and myself, also the Youngstown letters and Mr. Whitla promised that if I would substantiate the truth of the Youngstown letters he would see that there would be no prosecution.

Says He Gave Up Letters.

I then surrendered, through Mr. Whitla, all the letters that were in my possession and the world knows the result. I was arrested and convicted and deprived by my own counsel of telling my story on the stand.

I informed my wife the boy was brought in order to escape being confined in the pest house, and we were to be handsomely rewarded for taking care of him. This unfortunate woman was duped from start to finish in regard to the boy, as I was duped from the moment I let the letters go into Mr. Whitla's possession.

As my counsel afterward informed me, I had nothing to show or to prove, and that it was a matter of veracity—their word against mine. I had given up every scintilla of hope I had and now I am settled for. This story is as true as there is a God above us.

The statement is signed:

"James Boyle, Mercer, Pa., May 10, 1909."

Forker Denies Story.

Sharon, Pa., May 10.—Harry Forker was seen regarding the statement issued by Boyle. He said:

"I know absolutely nothing of this case. I only know Boyle as I know other members of his family, as residents of Sharon. I have never had any dealings with him. I do not know the woman who is said to be his wife. I can conceive of no reason why Boyle should make such a statement, unless it be to get even with the Whitla family for his prosecution following the abduction. Boyle never showed me any letters. Boyle did not see me in Cleveland."

Whitla Makes Denial.

Sharon, Pa., May 11.—J. P. Whitla, father of the kidnaped boy, after Boyle's statement had become public, denied that he had seen Boyle or talked with him in Cleveland prior to his son's return and the arrest of Boyle.

LONE BANDIT AT RENO

Gets $85, a Gold Watch, and Then Shoots a Man.

Reno, Nev., May 10.—At an early hour Sunday morning a lone masked man entered the Hammontree livery and ordered A. L. Hamontree, the proprietor, and M. Victor to line up against the wall.

The robber then searched them and took $85 in cash and a gold watch. Before the search was finished Jack Munroe, recently arrived from China, with relatives in New York, came into the back part of the stable leading a horse. With an oath the bandit wheeled upon Munroe and shot him in the groin.

The desperado, after warning the victims not to follow, leisurely sauntered down the street and disappeared in the darkness.

CHOPS OFF FATHER'S ARM

CAUGHT BY FALLEN TIMBERS OF HOME, RESCUED BY A DAUGHTER.

THE GIRL ALSO SAVED TWO BROTHERS

After Others Are Taken Out, Mother Is Found Dead Beneath Debris —Truly Deserving of a Carnegie Medal.

Bowden, Ga., May 10.—The heroism displayed by Jennie, the 15-year-old daughter of Mimi Price, who lives near Bowden, in saving three lives during the frightful storm of Friday night, has been the talk of the neighborhood for several days, and an effort is being made to purchase a handsome present for her and to ask the Carnegie commission for a hero medal.

When the storm struck her home it wrecked the house completely, burying the inmates under the wreckage. The girl was the only member who escaped.

Getting an ax from a wood pile, she went back to the house and, guided by the cries of the injured, began work on chopping them out. She worked over an hour getting her two little brothers out, and then tried to release her father.

As she had cleared the way for him she found that his hand was fastened under some of the timbers, too big for her to move.

His hand was so crushed there was no hope of saving it, so her father bade her cut it off.

When she had completed her work and saved her father she found that her mother had been killed by the falling timbers.

IMPRISONMENT FOR LIFE

BOYLE, THE KIDNAPER, RECEIVED EXTREME SENTENCE THIS MORNING.

WIFE MUST SERVE TWENTY-FIVE YEARS

Both Were Overcome When They Learned Their Fate—Threats of Double Suicide Were Not Idle Ones—Created No Scene.

Mercer, Pa., May 10.—James H. Boyle, convicted of kidnaping Willie Whitla, was sentenced today to life imprisonment in the penitentiary, and Mrs. Boyle received a sentence of twenty-five years, with a fine of $5,000 and costs.

Boyle did not create the scene in court that he had threatened and did not utter a word prior to sentence being passed.

Both Boyle and his wife collapsed completely upon hearing their sentences pronounced. Boyle managed to walk down stairs on his way back to jail, but later became limp and unable to stand. Mrs. Boye was unable to walk down stairs, and she was carried down by the officers.

Boyle later declared he would issue a formal statement soon, naming the mysterious third person, whom he alleges was implicated in the kidnaping.

That the theats of double suicide made by the Boyles were not idle words became known today, when a razor which had been secreted in his clothing was taken from Boyle today, and that Mrs. Boyle had taken a quantity of morphine, which seeming ly had little effect on her.

INJURED BOY WILL RECOVER

This Is the Report From the Bedside of Willie T. Everhardt.

(From Monday's Daily.)

Willie T., the 4-year-old son of Henry Evarhardt, who was seriously injured in the explosion and fire at the home of his parents, near Georgetown, on May 4, is getting along as well as could be expected, and his recovery is now considered more probable, according to his grandfather, Thomas J. Everhardt, who was in the city today.

This afternoon the children of Mr. Everhardt, Sr., with their wives, had a group picture taken at the home of the former.

This is the first time the children have all been at home together for years, but it was a truly sad homecoming, the occasion being the death of Mrs. Henry Everhardt and one of her children, a little daughter.

The family desires to express through the Democrat-Sentinel thanks to all who assisted them in their terrible bereavement, and to assure them that their kindness will be remembered as long as life lasts.

A Trinity of Tariff Thieves

HADLEY RAPS HAGERMAN

HE BRANDS ATTORNEY'S STATEMENT TO McPHERSON AS AN UNTRUTH.

NEVER PROMISED DISMISSAL OF CASES

Asserts That, on the Contrary, He Refused to Request Jones to Quash Suit—Synopsis of the Statement.

Jefferson City, May 8.—Statements about the rate litigation made to Judge McPherson and United States Attorney General Wickersham by Frank Hagerman, of Kansas City, general counsel for the eighteen Missouri railroads, are pronounced unqualified ly false by Governor Hadley in a statement issued Friday. His manifesto follows:

"Frank Hagerman's statement before Judge McPherson yesterday that I had written him a letter agreeing to dismiss Mr. Jones' injunction suit against the railroads and failed to keep my agreement is as unqualifiedly false as was his statement to the attorney general of the United States that 'every preliminary injunction against the rate laws was issued by the consent of the state.' The only letter I ever wrote Mr. Hagerman on this question was on April 21, and that letter is as follows:

"'It is still my idea that there will be no occasion to continue the St. Louis cases on the docket, but if I should decide otherwise a full opportunity will be given you and your associates to take such action as you may wish to take.'

"I wrote this letter in response to a request from Mr. Hagerman and because at that time it was my understanding that all the railroads intended to abandon the combination upon which the suit was based by putting into effect a 2½-cent rate. On the 23d of April, when some four or five roads announced that they intended to carry out the combination as originally made, I telephoned to Mr. Hagerman that I would not ask Mr. Jones to dismiss the case.

"While the question of what I did or did not say to Mr. Hagerman is not of particular importance, I do not propose to have my word questioned in this controversy any more than I intend to permit any unwarranted interference by the federal courts with the authority of the officers of the state of Missouri, or any injustice being done to the people of Missouri, if it is within my power to prevent."

THE ULTIMATUM OF GOVERNOR HADLEY

It Is the Prerogative of the Executive to Cut Out Any Item in Any of the Appropriation Bills—How About State Fair?

Jefferson City, Mo., May 10.—In an interview last night Governor H. S. Hadley practically laid down an ultimatum to the general assembly to the effect that if that body fails to pass legislation providing for additonal revenue for this biennial period he will use the pruning knife unsparingly on the appropriations.

This is a prerogative of the governor. He can cut out any item in any appropriation bill. Whether in this instance the governor will scale the budget of the state institutions or use his kife on the special appropriations he did not state. The present week will be the last of the session.

Governor Hadley said that he expects to send to the assembly a number of messages early this week, urging the passage of a number of railroad measures, among others the one giving the board of railroad and warehouse commissioners the power to regulate passenger rates and the Speer anti-pass bill.

He will also urge the passage of the bill separating the sources of state and county taxes.

THE NUDE MAN ONCE MORE

Bobbed Up at Tenth and Moniteau Sunday Night.

(From Monday's Daily.)

A comparatively nude man, with no covering for his person except an overcoat, was seen in the vicinity of Tenth street and Moniteau avenue at 10 o'clock Sunday night.

He made his appearance in the presence of several ladies, one of whom hurried home and sent a call to police headquarters for an officer.

Officers Howard Wood and George Eads responded to the call, but the nude individual was nowhere to be found.

Has Quit Newspaper Business.

Frank B. Moore, who began his newspaper career in Sedalia, but for the past eight years connected with the press of New York city, has retired from journalism, and is now the head of The Moore-Barckley Co. (Inc.), dealers in imported wall paper, with office and show room at 275 Lenox avenue, New York city. Constant confinement at a desk in a newspaper office was telling on Mr. Moore's health, hence his change to a business that is not so confining and where he is "his own boss," so to speak.

MR. C. W. HAMLIN'S VIEWS

RETURNS TO WASHINGTON AFTER VISITING THE SEVENTH DISTRICT.

REPORTS MANY PEOPLE OUT OF WORK

Believes That if Prohibition Question Is Submitted to Voters of Missouri It Will Seal Doom of Saloons.

Washington, D C., May 10.—Congressman C. W. Hamlin, of Missouri, took advantage of the lull in the proceedings of the house and visited in his district. Here is his view of conditions in Missouri at present:

"This republican panic is hitting the working people pretty hard out in Missouri, and a great many people are anxious to get government positions that they may escape the ersults of bad legislation by a republican congress.

"The people are very much interested in the tariff bill and are much disappointed that it is not a downward revision, as they understood it would be. However, they are anxious to have the matter settled one way or the other.

"The prohibition sentiment is certainly very strong out there. I don't know what the state senate will do in regard to prohibition, but if the amendment is submitted it loks very much to me as if it would carry in Missouri.

"I think the large cities would give a majority against prohibition, but I am inclined to believe that the rural districts would very largely favor it, and the rural vote, of course, is much larger than the city vote.

"That is why I think the amendment probably would carry if submitted. Seventy out of 114 counties in Missouri already have gone dry by local option."

Here Mr. Hamilton stopped for a moment and then added:

"You might say that the farmers in my section are not complaining They are doing well and getting good prices for their products. But the laboring men are out of work."

PLEASED WITH PASTOR

FIRST CHRISTIAN CHURCH ENDORSES REV. KOKENDOFFER'S LABORS.

BOTH PEACE AND HARMONY NOW PREVAIL

The Members Have Been Drawn Together in Christian Love and Fellowship—Close of the First Year's Work of Divine.

The following resolutions were adopted by the congregation of the First Christian church Sunday, May 9th:

Whereas, Today marks the first anniversary of the pastorate of our beloved brother, A. W. Kokendoffer, and the labors and duties of the past year have been exceedingly arduous, and at times the situation discouraging, and such as no doubt made him feel undecided as to whether he was meeting with success or not.

It therefore seems fit and proper that at the close of his first year's work, we, the congregation of the First Christian church, should give some expression of our satisfaction with his year's work.

During the entire year there has been, not a spasmodic, but a gradual and healthy increase of our membership. During the year sixty-eight new members have been taken into the church.

The financial condition of our church has been greatly improved, although not yet what it should be. During the past year, in addition to raising and paying over $3,000 of our current expenses, and in raising money to pay a deficit, the church has in that time actually raised and paid out for benevolent purposes $1,446.25, including money collected and paid for missions, orphans' home, Bible school, church extension, state work, Wharton Memorial fund and to the centennial fund. This in addition to our regular church expenses at home.

But, better than all, our brother has brought to us, by his untiring efforts and by his christian spirit, that he has infused into the church, peace and harmony, and brought our people together in christian love and fellowship.

He has also been a great power and influence in assisting the beloved superintendent of our Sunday school and the able corps of teachers in bringing the Sunday school to a high standard, both in numbers and usefulness, so that our Sunday school today is the joy and pride of all our hearts.

He has also been instrumental in placing our church before the public in the light to which it is entitled. He enjoys the respect and confidence of the community, as well as the love of the members of the church. We feel that under his leadership there is a bright future for our church.

For all this, at this, the close of the first year of labor among us, we want to thank him and express our high appreciation of his ability as a preacher of the Gospel and as an earnest and conscientious pastor; and we pledge him our most cordial support and sympathy, and offer the prayer that his labors may be blessed and that he may spend very many, many years with us as our pastor and leader.—G. W. Barnett, Chairman of Board of Officers.

THE GRAND JURY AT WORK

Today It Began Investigating the Accusations Against Gov. Haskell.

Tulsa, Ok., May 10.—Again today the federal grand jury here took up the investigation of the Muskogee town lot fraud cases, which are being pushed by the government.

These are the same cases in which indictments were returned last winter against Governor Haskell and half a dozen other Oklahomans and which were later quashed because of a technicality.

ALDRICH'S PARTING SHOT

In Tilt in Senate This Morning Beveridge Is Attacked.

Washington May 10.—"If the senator from Indiana will give a fraction of the time to the consideration of tariff matters that I have given he will serve his constituency and country better."

The foregoing was Senator Aldrich's parting shot at Senator Beveridge in a tilt between the two which occurred in the senate today.

IMAGINATION

BY EDWARD F. McSWEENEY.

"For a dream cometh through the multitude of business."—The Bible.

The mother who desires her children to grow up to do great things in the world will do well to give them the advantage of the good old fairy stories which have been declining in popularity of late years. Many mothers mistakenly believe that such reading tends to impair the clear insight of children, and lessen in later life the power of literal accuracy of thought essential to truth and goodness. Never was there a greater error, however, for it is in childhood the creative power is developed. The shaping spirit of the imagination filling the real world with another world of fancies; the dreams which in maturity enables the possessor to beautify homely things, to more amply illustrate, powerfully defend and effectively enforce the principles and truths of science and art, are the best aid to substantial progress a child can be given.

In most fairy stories, self-sacrifice, suffering and evil, even, are pictured as possible conditions of good. The child whose power of imagination is not cultivated may be scrupulously honest and just, but is dull, cold, contracted, and regardless of others. Imagination, on the other hand, enables us to put ourselves in the situation of others; to enter into their wants and feelings, participate in their joys and share their sorrows, and to promote the feelings which inspire friendship and sweeten the world. Joy in our employment and friends is due to the ideals with which the imagination invests them.

Nature itself teaches the lesson of imagination, softening harsh outlines by the morning mists and gilding the horizon with the lovely light and glorious pomp of the sunrise and sunset; thus making contrast between the world as seen in the garish light of the midday and as clothed in the ideal garments of nature's own creation.

The first requisite of the philosopher, poet, artist is an active and glowing imagination backed by creative power; given this, nothing is impossible, and we have—genius. Plato, Galileo, Newton, Agassiz, Scott, Burns, Moore, Raphael, Murillo, our own Longfellow and O'Reilly, and all the shining company of the immortals were distinguished from their fellows by a wealth of imagination. There never was a great discoverer, navigator, inventor, reformer, priest or prophet who did not have this God-given gift to project his spirit into the future and later to materialize his vision.

When children tell the "whoppers," which may be literally called lies, it is the workings of a blessed growing imagination which scorns reality. The funny stories which children tell are not lies, because their little minds can provide human beings with wings, turn them into angels and cherubs; can transform the shapes of animals, change trees into giants, flowers into fairies; in short, for time being make over the serious world they are just beginning to see, into a children's heaven.

No business man lacking in imagination ever made a great success, because the successful business man must have imagination to succeed. Imagination is equally valuable to the doctor, the lawyer and the artisan; perverted it makes for misery; without imagination religious faith, which is the greatest force for happiness in this world, becomes insipid and perfunctory.

Yes, mothers, give your darlings the fairy tales; there is nothing better for them than the fairy tales of Grimm, Hans Anderson, Arabian Nights, Alice in Wonderland and the like, and, better still, believe in them yourself.

SEDALIA BIRTH PLACE?

SO CLAIMS A YOUNG WOMAN WHO WAS ARRESTED IN KANSAS CITY, MO.

PAULINE NELSON IS INSANE EPILEPTIC

The Girl Who Worked a Department Store Has a Record of Detention in the Kansas Asylum in City of Parsons.

Kansas City, Mo., May 8.—Pauline Nelson, who was arrested Thursday night for obtaining merchandise under false pretenses from several department stores in this city, was discharged from the Kansas state insane asylum at Parsons, February 27, this year.

She was an inmate of that institution from August 29, 1907, until October 29, 1908, when she was paroled, but not finally discharged until the latter part of last February.

The girl was sent to the Parsons asylum from Kansas City, Kas., after having been adjudged an epileptic by Dr. D. E. Smith and Dr. E. A. Reeves in the probate court of Wyandotte county.

Miss Nelson's presence in Kansas City, Kas., was first known publicly when she applied at the Carrie Nation home for shelter, August 16, 1907. While there she constantly talked of the stage, fine clothes and luxurious apartments.

She frequently expressed her desire to become a chorus girl, saying that she could sure make a hit with her clothes, for they were made by a special dressmaker in Paris.

When she was not optimistic over her imaginary finery she was brooding over imaginary wrongs. These fits of depression often led her to acts of violence, and for several days she was watched for fear that she would commit suicide.

Her actions caused those in charge of the home to suspect her sanity, and August 26, ten days after her arrival at the home, papers were filed in the probate court charging her with insanity. Three days later she was adjudged an epileptic.

During her trial in the probate court the girl said her name was Pauline Ruth Nelson; that she was born in Sedalia, Mo., and was 19 years old then. She said she had been on the stage seven years, but this statement was disregarded by the physicians.

Her fondness for babies was remarkable, and often while in the Carrie Nation home, where many children are kept, she would seize a child and squeeze it sufficiently to endanger its life before it could be taken from her.

It was learned by the officials of the Carrie Nation home that the girl came to Kansas City, Kas., from Hutchinson, Kas., where she had worked as a domestic. Before going to the Carrie Nation home she worked as a domestic for Mrs. William Zane, who lives near Fourth street and State avenue, Kansas City, Kas.

Pauline Nelson was arrested Thursday afternoon at the George B. Peck Dry Goods store, where she had just obtained credit for wearing apparel to the value of about $70 by representing herself as the daughter of Mrs. B. Schinn, of 3735 Central avenue. She is being detained at police headquarters pending an arraignment.

HIS CONSCIENCE HURT HIM

Refunded $1.50 Paid for Wood That Was Never Delivered.

A man walked up to H. H. Smith on our streets last Friday, says the Glasgow Missourian, and remarked, "Here's $1.50 which I owed to your father, cash money he paid me for wood which I never delivered, and I want to relieve my mind by paying you."

"Ginger" says he has heard of conscience-stricken individuals, but this was his first practical experience with one of them, and he was so thunderstruck that he absolutely refused to take the money; instead, he told the fellow if he belonged to a church to give it to his church, or if he wasn't a member of a church to hand it to some religious denomination.

As "Ginger's" father has been dead for twenty-three years, this fellow has had a long tussle with his conscience. "Ginger" did not know the man, and when he came to the fellow had disappeared.

The Green Ridge Local News of the past week had the following paragraphs:

At the meeting of the Pettis county court, last Monday, our popular furniture dealer, George R. Shelley, was appointed justice of the peace in and for Green Ridge township, to fill the vacancy caused by the removal of Fred E. Ream from the township.

Miss Eva Upton has been employed by the board of education of the Knapp school, to teach their school the ensuing term. Miss Eva graduated from the Green Ridge High school this week, receiving the highest honor of the class. We predict a successful year for the Knapp school.

The editor of this paper has as great need for money as anyone, perhaps, but a chance to contract for $25 in advertising for a St. Louis brewer was turned down without the least compunction of conscience this week. We regard this an advance movement to install themselves against the influence of the country press, but we cannot become a party to it, even for pay.

The board of education, of Green Ridge district, at its meeting on Wednesday evening of this week unanimously etlected the following teachers for the coming scholastic year: Principal, S. J. WILL ADDRESS UNION MEN

Rev. Grant A. Robbins to Lecture to Them Sunday, May 16.

The Rev. Grant A. Robbins, pastor of the First M. E. church, will deliver a special lecture for the union men of the city at the church edifice Sunday night, May 16. He had not selected his subject Saturday.

A general invitation to all union men of Sedalia has been extended to attend the lecture and it is probable that many of the labor organizations will attend in a body.

At the annual conference of the Methodist church last year the ministers of that faith decided to deliver annually a sermon in the interest of union men and this year will be the first time the plan has been put into effect.

The Rev. Robbins is one of Sedalia's most able and enthusiastic orators, has a kindly feeling for the interest of union men and his discourse of the forthcoming night will doubtless be heard with interest by everyone in attendance.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. MRS. BOYLE ALSO GUILTY

CONVICTED OF COMPLICITY IN THE KIDNAPING OF MASTER WILLIE WHITLA.

REACHED A VERDICT ON FIRST BALLOT

Fair but Frail Prisoner Says if She and "Jimmie" Go to the Penitentiary They Will Not Make Trip Alone.

Associated Press.

Mercer, Pa., May 8.—The jury returned a verdict finding Mrs. James Boyle guilty as indicted, or guilty of aiding and abetting in the kidnaping of Willie Whitla, this morning. The verdict was reached on the first ballot.

Court had adjourned, however, until 1:30 this afternoon, and the verdict could not be reported till that hour.

"If Jimmie and I are sent to the penitentiary," said Mrs. Boyle today, "we will not go alone. Half the truth in this case has nt been told yet, and the one man who planned the whole thing has not been arrested."

The name of Patrick Buhl, the millionaire steel man, uncle of little Willie Whitla, was dropped into the trial Friday in a sensational manner.

It was testified by two Cleveland detectives that Mrs. Helen Boyle, when arrested in Cleveland, used Buhl's name in a most interesting way, alleging that her arrest was a mistake, and that she would never be taken to Sharon because "Buhl was as strong in the case" and she and her husband were.

Throughout the proceedings Boyle and his wife apparently desired to bring out the name of another person, said to have been connected with the case.

Declaring he had not had a fair trial and that he wanted to tell the whole truth about the kidnaping case, Boyle created a commotion in the court room. It was with difficulty that he was prevented from telling his version of the affair.

Boyle was put on the stand for the state and was asked to produce the first letter to Mr. Whitla demanding $10,000 ransom.

Without any reference to the letter, Boyle almost shouted out:

"I want to tell the whole truth about this case now. I want the whole thing cleared up. I was not to blame. The whole blame was on someone else."

Attorneys for both state and the defense, the court officials and even Judge Miller himself, took part in the effort to stop Boyle's tongue.

In her cell, Mrs. Boyle said:

"Both Jimmie and myself have tried to tell the whole story. We have not been permitted to do so. It is not justice. Everything should be heard and thrashed out. As for myself, I will commit suicide before I will go to the penitentiary."

Great public interest is manifested over the question whether the Boyles will be allowed to state what is on their minds.

As both cases have been closed, the only chance the Boyles will have will be when called on to say why sentence should not be pronounced.

Buhl was not in the court room during any part of the woman's trial, but he attended the trial of Boyle a few days since.

Detective Frank Wood, of Cleveland who arrested the woman in Cleveland, testified that she said to him then:

"You think you are pretty damn smart don't you? You'll have your name and picture in the papers I guess; but I am the little woman who framed the game up and I can get the money.

"There will be hell in Sharon tomorrow when Buhl hears of this Buhl will be sorry for this, for the eyes of that little boy will be burned out with acid in a week."

The woman smiled broadly as Buhl's name slipped into the case.

Lieutenant Albert Walker, of Cleveland, who was in charge of the station house when the woman was brought in, created more furore by testifying that the woman said to him:

"We expected to be arrested when we planned this job. You have got the goods on us and got us right. But I am not afraid they'll take me back to Sharon, for Buhl will be in trouble, too, if they do, and he is in just as strong as we are."

Mercer people recall the fact that the woman was not brought to Sharon, as she said she would nt be. She was hurried into Pittsburg by a special train from Cleveland.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

CUT THROAT WITH RAZOR

CHARLES FELLER, AGED 33, TINNER AT MISSOURI PACIFIC SHOPS.

DESPONDENT OVER DEATH OF A BROTHER

Slashed Throat From Ear to Ear in His Room at the Delmar Hotel —Is Now at Katy Hospital —Will Recover.

(From Sunday's Daily.)

Despondent over the death of his twin brother, George Feller, at Cincinnati, O., a week ago last Thusday, Charles Feller, aged 33, employed in the Missouri Pacific tin shop in this city, slashed his throat with a razor in room No. 32, on the third floor of the Delmar hotel, Lamine avenue and Main street, at 11:30 o'clock Saturday forenoon.

Dr. Charles McNeil, Dr. A. J. Campbell, Dr. K. R. Barnum and Coroner F. R. Morley were summoned, and, after working with the patient for two hours, saved his life.

He was removed to the M., K. & T. hospital, where it was said he had a fair chance for recovery.

Feller slashed his throat three differen times, cutting the flesh from ear to ear and completely severed the windpipe. Dr. Campbell sewed the gashes.

One week ago last Thursday, Feller, who has been rooming at the Del mar hotel, received a telegram stating that his brother was dying at Cincinnati. He left for there at once While en route there his brother died.

Returning here last week, Feller continually brooded over his brother's death until it affected his mind.

At 11:30 o'clock yesterday morning he entered the hotel lobby, and asked James Cummings, a member of the Salvation Army, if he had a gun. Feller said he wanted to practice shooting. He then sat in a chair and began crying.

A minute later he left the hotel lobby and porceeded to his room on the third floor. Cummings became suspicious and notified the police. He then followed Feller to the latter's room, and, throwing open the door, found Feller lying on the bed with his throat slashed from ear to ear and blood spurting in all directions.

Dr. Charles McNeil was the first physician to arrive. The other physicians followed shortly.

Restoratives to assist in breathing were administered to the patient, and after Dr. Campbell had sewed the gashes, Feller motioned for a pencil and piece of paper.

Assisted by the physicians he wrote in a neat hand these words: "For two days I could not see; just dizzy. Don't send telegram home; folks are all upset now.

"Headache was very bad all the time."

While writing the notes Feller frequently stopped and put his hand to his head, evidencing the fact that he could not think.

Feller has been employed at the shops for several weeks past and had been boarding at the hotel since April 1. He is a member of the Fraternal Order of Eagles at Chaffee, Mo. He has a father, a brother and two married sisters living in Cincinnati.

BOYS AS "RAT-SCORCHERS"

Secret of Organization Was "Tipped" by Confession at Dallas.

Hearst News Service.

Dallas, Texas, May 8—Sensational disclosures were made today when it developed that nine houses at Midlothian, a town of 1,000 inhabitants, twenty miles from here, in Ellis county, have been destroyed by fire since January 1 by a secret order among boys.

This was brought to light through a confession made by Ernest Williams, who pleaded guilty to the charge of arson.

Williams gave the names of all the members of the society, saying the organization was fully officered, and pass words and signs were used.

Lots were drawn to determine who should apply the torch.

DEADLY POWDER MILL AGAIN

An Explosion at a Lebanon, O., Plant Could Be Heard Ten Miles.

Lebanon, O., May 8.—Two wheel mills in the plant of the King Powder company at King's Mills were totally wrecked by an explosion yesterday, which could be heard within a radius of ten miles around. The workmen had just left the mills, thus escaping death.

The explosion was probably caused by the throwing of a spark from the machinery into the green powder that became too dry for operation.

CURED ITCHING PAINFUL HUMOR

Which had Spread Over Face, Body and Arms—Swellings were as Large as a Dollar—When they Broke, Sores would Not Heal—Suffered 3 Years.

MADE SOUND AND WELL BY 3 SETS OF CUTICURA

"My trouble began about three years ago with little black swellings scattered over my face and neck. They would disappear but they would leave little black scars that would itch at times so I couldn't keep from scratching them. Larger swellings would appear in the same place and they were so painful I could hardly bear it and my clothes would stick to the sores. The first doctor I went to said the disease was scrofula, but the trouble only got worse and spread. By this time it was all over my arms and the upper part of my body in big swellings as large as a dollar. It was so painful that I could not bear to lie on my back at night. The second doctor pronounced my disease inflammation of the lymphatic glands. He stopped the swellings, but when they would break the places would not heal. He tried everything that he could but to no effect. He said I might be cured but it would take a long time. I bought a set of the Cuticura Remedies and used them according to directions and in less than a week some of the places were nearly well. I continued with the Cuticura Remedies until I had used three sets, and now I am sound and well. The disease lasted three years from the time it commenced until I was cured. Before Christmas something broke out on my seven year old brother's hands in the form of large sores. I tried everything I could think of but to no effect until I happened to think of Cuticura and one application cured him. Also, not long ago, my sister got a bad burn on her ankle. I have been using Cuticura on that and it gave her scarcely any trouble. O. L. Wilson, Puryear, Tenn., Feb. 8, 1908."

PLANTS $50 CASH BY MISTAKE

Farmer Plows Bunch of Greenbacks Into Soil of Field.

Fairfield, N. J., May 10.—Horatio Mahon, a farmer, was plowing a field when another farmer came along and bargained for one of Mahon's cows.

When the deal went through Mahon took the $50 he received and shoved the bills, as he thought, in a pocket of his trousers and resumed his work. When he had finished he felt in his pocket for the money, but it was not there.

He then discovered that he had placed the bills, not in the pocket, but between his overalls and trousers, and that they had slipped down to the ground, where they were probably buried by the plow.

Mahon searched for the money without result. He then went to work and planted several bushels of peas and hopes to raise a mixed crop of peas and greenbacks.

SEEK HIDDEN POT OF GOLD

Excavation for Church Expected to Disclose Money.

Cincinnati, O., May 10.—The excavation for the structure of St. Francis' church in Dayton, Ky., a suburb, is being watched by many who believe a pot of gold has been buried under that site since the raid of Gen. John Hunt Morgan and his band of confederates, near the close of the civil war.

The property belonged to the late Matthew McArthur, a noted southern sympathizer. The story goes, there was a subterranean passage leading from the house, and it is here, the passage having long since been filled up, that the treasury is supposed to be.

The money was left, it is said, by a confederate named Caldwell, who had been sent north to pay the troops of Gen. Morgan, then in this vicinity. That he stopped at the McArthur residece, and his presence being disclosed, he secreted the gold, said to amount to several thousand dollars, and escaped, intending to join Gen. Morgan, the latter being killed in Tennessee about the same time.

THIS MAN WON $60,000

Three Times the Bank's Funds Had to Be Replenished.

Monte Carlo, May 10.—Playing at trente et quarante last Tuesday in the casino, a Polish visitor, gambling at two tables at the same time, won a large sum, said to exceed $60,000.

The bank's funds had to be replenished three times within an hour and a half. The same man won $16,000 the next day and on Thursday he had equal success.

A peculiar point is the winner's extraordinary demeanor. When he loses not a muscle of his face moves, but after winning he becomes a picture of misery, much to the amusement of the huge crowd surrounding him.

A boom for Roosevelt for Mayor of New York was launched today by General Stewart L. Woodford and other "war lords" in the republican camp.

It has not only the backing of General Woodford's prestige, but has the support of other leaders who have for years been identified with republican politics and policies

It is admitted that the boom has neither the knowledge nor the consent of Mr. Roosevelt, but those back of it believe there will be such insistent demand for him that he will cut short his hunting trip and return to lead the campaign.

OLDEST AND BEST BLOOD PURIFIER

We have never claimed that S. S. S. was a medicine to work wonders, nor one that would cure every physical ailment or disorder. More than forty years ago it was placed on the market and recommended as a blood purifier, and today, after a long and successful career, and when its use has become almost universal, only the same honest claim is made for it—that it is a cure for those diseases and disorders arising from an impure or polluted blood. Time makes no mistakes, and the very best recommendation of S. S. S. is the fact that it has stood a long test and is now more generally used, and has the confidence of a greater number of people than any other blood medicine.

The blood is the most vital force of life; every organ, nerve, muscle, tissue and sinew of the body is dependent on it for nourishment and strength, and as it circulates through the system, pure and rich, it furnishes to these different members the healthful properties needed to preserve them and enable them to perform their various duties. So long as the blood remains free from infection we are apt to escape disease, but any impurity, humor or poison acts injuriously on the system and affects the general health.

Having used S. S. S. extensively I can testify to its merits as a blood purifier and tonic. It enriches, purifies and cleanses the blood of all impurities, and at the same time is a wonderful invigorator, tonic and system builder. It is also a fine remedy for Rheumatism. It is master of this very painful disease, and as a tonic to give appetite, strength to the nerves and build up the system it has no equal.

It is a very fine medicine indeed, and I have every confidence in it.

MRS. F. L. BAILEY.
702 Linden St., Clearfield, Pa.

Pustular eruptions, pimples, rashes, and the various skin affections, show that the blood is in a feverish condition as a result of some humor, or the presence of an irritating, fiery acid. Rheumatism comes from an excess of uric acid in the circulation, while Catarrh, Sores and Ulcers, Scrofula and Contagious Blood Poison, are all deep-seated blood disorders that will continue to grow worse as long as the cause remains. Bad blood may come from various causes, such as a sluggish condition of the system, imperfect bowel and kidney action, indigestion, etc., or the trouble may be inherited; but whatever the cause the blood must be purified before the body can be healthy.

S. S. S. is a natural blood purifier and tonic. It is made entirely of the harmless juices and extracts of roots, herbs and barks of recognized curative ability, and being free from all harmful minerals is an absolutely safe medicine for young or old. S. S. S. goes down into the circulation and removes any and every trace of impurity, humor or poison. It freshens and enriches the blood and cures promptly and permanently Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Skin Diseases, Contagious Blood Poison, and all other blood disorders. S.S.S. is the most reliable and at the same time a most pleasant acting medicine for those whose blood has become weak and who are suffering with Anaemia, Malaria or some other debilitating sickness.

A blood purifier is especially needed in the Spring to cleanse the circulation of the impurities which have accumulated during the shut-in life of Winter, and S. S. S. is the most reliable and certain of good results. Book on the blood and medical advice free. S.S.S. is for sale at all drug stores. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

THE BUREAU OF BEAUTY

CHAPTER ON CARE OF MOUTH AS WELL AS PRESERVATION OF ONE'S TEETH.

DR. HEBRA ON A THEME THAT IS TIMELY

If You Follow the Advice That He Gives You'll Not Have Bad Molars, Pale Gums and Breath That's Offensive.

By Dr. Hebra.

Written for the Democrat-Sentinel.

Besides the red lips and the gums, the teeth, in particular, are an ornament to the mouth. Unfortunately, there are but few persons who can boast of a perfectly healthy set of teeth, which is found as a normal condition only among savages and animals. The chief causes of the admitted fact that most persons have some defect in the mouth—bad teeth, pale gums, offensive odor—lie in part in our civilization with the injection of hot and sometimes sour food, and in the lack of attention bestowed upon the mouth by so many people.

The care of the mouth is more important after meals and in the morning. Particles of food lodge even between the most perfect teeth, and undergo rapid decomposition in the high temperature prevailing in the mouth. This gives rise to a disagreeable odor and the decomposition quickly extends to the teeth. Perfectly normal teeth consist of a hard, brilliant external coat, the enamel which opposes great resistance to acid and decompoing substances. But, unfortunately, the enamel is very sensitive to changes of the temperature of the mouth and cracks easily, thus admitting to the bony part of the teeth such deleterious substances and leading to their destruction.

The bulk of the tooth consists of a porus mass of bone which is easily destroyed and thus the entire set may be lost. In this article we will offer to the public means by which a healthy set of teeth may be kept in good condition, and the diseases arreted in affected teeth, and by which an agreeable freshness is imparted to the gums and lips.

The hygiene of the mouth is a necessity, since it has to deal with the health and preservation of the important masticatory apparatus which is necessary to the welfare of the whole body, so that the aesthetic factor occupies a secondary position, or rather result, as a necessary consequence from the proper care of the mouth.

With no other hygienic articles have so many sins been committed as with those intended for the teeth. We have had occasion to examine a number of tooth powders, some of them very high priced, which were decidedly injurious. Thus, we have known of cases in which powdered pumice stone, colored and perfumed, has been sold as a tooth powder. Pumice stone, however, resembles glass in its composition and acts on the teeth like a fine file, which rapidly wears away the enamel and exposes the frail, bony substance. It needs no further explanation to prove the destructive effects of such a powder on the teeth.

Many persons prize finely powdered wood charcoal as a tooth powder, and to some extent they are right. Wood charcoal always contain alkalies which neutralize the injurious acids, besides traces of products of dry distillation which prevent decomposition.

But these valuable properties are counteracted by the fact that charcoal is always more or less gritty, or, being insoluble, will lodge between the teeth and form the neucleus for the lodgment of other substances.

In compounding articles for the mouth and teeth—tooth powders and mouth washes—the objects aimed at are to neutralize the chemical processes that injure the teeth and the gums and to restore freshness and resisting power to the relaxed gums and mucous membrane.

Remnants of food left in the mouth after meals soon develop acids which attack the teeth. They are neutralized by basic substances or alkalies which counteract them. The formation of organic acids from food remnants are caused by microscopic fungi which adheres to the teeth (so-called tartar) in the absence of cleanliness. Against these substances there are at our disposal a number of substances which kill them rapidly and thus for a time arrest the process of decomposition. They are called antiseptics.

Compounds of the tannen group which strengthen the gums are known as astringents. There are but few tooth powders or washes on the market which combine several substances embodying the above properties. They generally incorporate but one, and many consist of aromatics alone, which merely perfume the mouth without any hygienic effect whatever; the large majority of so-called secret preparations are arrant humbugs.

Articles for the care of the mouth and the teeth may be divided into tooth pastes, powders, tinctures, lotions and mouth washes. We include a formula for each:

Tooth Soap.

Soap, one-fourth pound; talcum, one-fourth pound; orris root, one fourth pound; sugar, one-eighth pound; water, one-eighth pound; oil of cloves, 19 grains; oil of peppermint, three-fourths drahm.

Camphorated Chalk Tooth Powder.

Prepared chalk, one-half pound; camphor, one-eighth pound; powdered orris root, one-fourth pound; powdered cinnamon, one ounce.

Myrrh Tooth Tincture.

Mace, one and one-half drahms; myrrh, one ounce; cloves, one ounce; rhatany root, one ounce; alcohol, one and one fourth pints.

Chloral Mouth Wash.

Chloral hydrate, one-eighth ounce; water, one and one-fourth ounces.

Visit a reputable dentist at least twice a year and have your teeth carefully examined. It pays.

ATTEMPTED JAIL DELIVERY

Prompt Action on Part of Sheriff Faulconer Foiled Prisoners.

A wholesale jail delivery at the county jail was nipped in the bud by the shrewdness of Sheriff Faulconer Thursday evening, says the Warrensburg Star.

Sheriff Faulconer had gone into the jail after supper to lock the prisoners in their cells and to make his usual night visit of inspection of the inclosure.

Near the water sink he noticed a newspaper fastened against the south wall of the building at the rear of the iron cells about four feet from the floor and on examination found a hole cut into the wall about six inches in circumference and within the thickness of one brick from reaching the outside.

But for the early visit of Sheriff Faulconer, which stopped progress on the work, there would no doubt have been a wholesale jail delivery before 9 o'clock Thursday night.

Every prisoner was promptly locked up and questioned as to who was guilty of cutting the hole. It finally developed that those most active in the plot were Arch Heard, Ike Yocum and Cecil Thomas.

Heard was convicted in the criminal court some time ago for forgery at Chilhowee and sentenced by Judge Bradley to five years in the penitentiary, with parole during good behavior.

Last week he disturbed the peace of his wife at Centreview, violating his parole, and he was again arrested and placed in jail to await the time to get a clear bill of health before he can be taken to Jefferson City.

Yocum is serving out a sentence for hog stealing and is an all-around bad man.

Cecil Thomas is a darkey who was recently convicted for burglarizing the Jewell bar.

POCKETS FULL OF MONEY

Supposed Beggar Had Plenty Currency When Locked Up.

(From Sunday's Daily.)

Apparently a beggar and a vagabond, James Cassidy, a stranger in the city, who was given fifteen days in jail for disturbing the peace by Judge Rickman Friday, later proved to be about the wealthiest "hobo" who ever struck this city.

When taken to jail and while undergoing a searching process, Cassidy revealed the fact that he is not penniless, as every pocket in his clothing was found to contain money of all denominations, including gold.

The aggregate amount of the money found in Cassidy's pockets was $75 and when Sheriff Henderson learned that fact he compelled the prisoner to pay the court fine, instead of serving out the sentence.

This Cassidy did and he was released.

BURIAL OF MRS. SHAFFER

Remains of Former Sedalia Lady Interred in Ohio.

The funeral of Mrs. Saran Ellen Shaffer, a former resident of Sedalia, whose death was recently chronicled in the Democrat-Sentinel, was written of as follows in the Barnesville, Ohio, Enterprise of May 6:

Mrs. Sarah Ellen Shaffer, who died in Hot Springs, Ark., April 28th, aged 80 years, was laid to rest Monday afternoon in Greenmount cemetery beside her husband and four children, the Rev. Batelle McCarty, of the First Methodist church, officiating. The remains were accompanied here by her two daughters, Miss Christine Shaffer, principal of a school in Hot Springs, and Mrs. Birdie B. Jones, of Boulder, Colo.

Mrs. Shaffer was a native of Ohio, being well known to many older residents of Barnesville, having lived in Hendrysburg for several years. In 1882 she removed with the two younger girls to Sedalia, Mo., where an older daughter, Mrs. Mattie Hutchison, resided. In 1903, with her two daughters, teachers in the schools, she removed to Hot Springs, Ark. Mrs. Shaffer was a faithful member of the Christian church and a highly intelligent and refined woman, having literary talent of high order. She was a valuable contributor to the newspapers of Eastern Ohio, the Enterprise being prominent among them, and her favorite paper.

The funeral was attended by many relatives from Hendrysburg, Quaker City and Bethseda. The grave was covered with many beautiful floral offerings, sweet expressions of love and esteem from hosts of friends in Hot Springs.

Mrs. Shaffer is kindly remembered here by many people. She was beloved and esteemed by all who knew her, and her bright mind and unusual intellect made her interesting and companionable in her home and among her friends. Sincere sympathy is extended the bereaved daughters in the loss of a good mother.

No one saw the accident. The boy was driving a four-horse team and it is supposed that the horses ran away. The harrow passed over his body several times.

CARL HALE IS ACQUITTED

Was Charged With the Murder of a Woman.

Atchison, Kas., May 8.—At 6 o'clock last night the jury in the Carl Hale trial returned a verdict of not guilty, after having been out two hours. Carl Hale is the 17-year-old boy who was charged with the murder of Mrs. Jerome Hoover, on March 3.

As soon as the foreman of the jury had announced the verdict, a shout went up from the spectators in the court room, and the boy, then no longer a prisoner, rushed forward to shake hands with the jurymen. Tears of joy trickled down his cheeks.

Mrs. Ida Hoover, wife of Jerome Hoover, was found dead at her home three miles southwest of this city. A bullet wound was found behind one of her ears. Because Carl Hale had been seen on the Hoover premises that day with a rifle in his hand he was arrested on the charge of murdering Mrs. Hoover.

At the time of his arrest he denied having the rifle on the day of the killing, but on a subsequent Sunday he confessed to having fired four or six times at several shriveled peaches on a tree that stands two feet from the east side of the Hoover house, and admitted that one of the bullets may have passed through an open window and killed Mrs. Hoover.

TO MAKE TEST OF SEEDS

A LABORATORY FOR THIS PURPOSE HAS BEEN INSTALLED AT COLUMBIA.

GREAT THING FOR FARMERS OF MISSOURI

In Sending Seeds for Test, Samples Should Be Representative of the Bulk as Nearly as Possible.

The experiment station wishes to announce that through the co-operation of the United States department of agriculture a seed-testing laboratory has been installed at Columbia, Mo. All samples will be tested free of charge and the reports returned immediately, giving the number and kind of weed seeds present and the amount of impurities of other sorts. A germination test will also be made when requested, showing the number of seeds that will grow. Where simply a purity test is desired a report can be returned within two or three days, but where a germination test is necessary a somewhat longer time will be required.

In sending seeds for test the samples should be representative of the bulk as nearly as possible. For small seeds, such as grasses and alfalfa, a tablespoonful is sufficient. It will be best, however, to send a couple of tablespoonfuls if they are available, and in the case of larger seeds a half pint should be submitted. The name and address of the sender should always be written on the package of seeds and a letter should accompany it stating whether simply a purity test is desired or both a purity and germination test.

It will be possible with this arrangement for farmers to send for samples from various seed dealers, and send these to Columbia for test and then buy on the results of this experiment. It will be no longer necessary, therefore, for our farmers to buy seeds containing various pernicious weed seeds without knowing what they are buying. The seedsmen will thus be more careful in the kind of seeds they send out, and the whole effect will be to improve the seed conditions of Missouri. Reliable seed houses will welcome such control of the seed business.

The Missouri farmer can no longer afford to buy a poor quality of seeds at a low price. Poor seeds are, as a rule, not only worthless in many cases, but may be very dangerous from the pernicuous weed seeds they carry, and it is much cheaper to pay a good price for good seeds than a low price for poor seeds.

It is hoped, therefore, that Missouri farmers and seed dealers will take advantage of this opportunity and know exactly the quality and the character of the seeds they handle. The experiment station will gladly assist in the procuring of good seeds wherever it is possible.

Samples should be addressed to the Seed Laboratory, Columbia, Mo., or to M. F. Miller, Agricultural Experiment Station, Columbia, Mo.

Kirksville Lodge Will Raise $20,000 to Show Its Good Faith.

The grand lodge proposes to build a $100,000 home and it is probable that the town which gets the plum will have to donate a small farm and a money bonus.

The Business Men's league of Kirksville is behind the local lodge in raising the necessary money to offer as a bonus.

Dr. Pierce's Common Sense Health Talks

No man is stronger than his stomach. Make your stomach strong and you thereby fortify your system against the attacks of a long list of diseases which originate in the stomach and must be reached, if at all through the stomach. Thus torpid, or lazy liver, biliousness, dyspepsia, impure blood and various skin affections originate in weak stomach and consequent poor nutrition. The same is true of certain bronchial, throat and lung affections.

Dr. Pierce's Golden Medical Discovery

Strengthens the stomach, invigorates the liver, purifies the blood making it rich, red and vitalizing and thereby curing the above and kindred affections.

It's foolish and often dangerous to experiment with new or but slightly tested medicines—sometimes urged upon the afflicted as "just as good" or better than "Golden Medical Discovery." The dishonest dealer sometimes *insist* that *he* knows what the proffered substitute is made of, but *you* don't and it is decidedly for *your* interest that *you* should know what *you* are taking into *your* stomach and system expecting it to act as a curative. To *him* its only a difference of profit. Therefore, *insist* on having Dr. Pierce's Golden Medical Discovery. If not promptly supplied trade elsewhere.

UNUSUAL COURT PROCEEDING

First Suit of Kind Ever Filed in Randolph County.

Mrs. Nora Broadwater, by her attorney, W. P. Cave, today filed in the circuit clerk's office, the only suit of its kind ever brought in this county, says the Moberly Democrat.

On August 21, 1900, the plaintiff's husband, Sidney Broadwater, a Wabash engineer, was killed at Kansas City.

The plaintiff brought suit soon thereafter against he company for $5,000. It was tried in the circuit court here and a verdict given the plaintiff for the full amount asked.

The Wabash appealed the case to the United States court at Hannibal, but that court not having jurisdiction the appeal was then taken to the supreme court of Missouri.

After seven years in court, that tribunal, on May 15, 1908, handed down a decision reversing the lower court—and most everybody thought the case had been disposed of finally and against the plaintiff.

It seems, however, that Attorney W. P. Cave has discovered a statute forgotten or not known to most lawyers, by which the suit may be renewed, and under the provisions of this statute he has now entered suit against the company for $5,000. The case will come up for trial at the June term at Moberly.

WASN'T HIS WIFE'S FOOT

Lack of Crooked Toes Alone Saved a Veiled Woman.

St. Louis, Mo., May 8.—George Schutz had to be shown the bare foot of a veiled woman he had arrested with a man at 3110 Pine street to be convinced she was not his wife.

When she refused to lift her veil, Schutz was sure the voice was his wife's. He also identified her by a vaccination scar on her arm. To make identification complete, he had her bare her right foot, saying his wifes' toes are crooked.

When the young woman showed every toe normal, Schutz left. Later he found his wife at home.

These bonds are to bear interest at the rate of 3 per cent, payable in thirty years, and will not increase the present rate of taxation. The resolution does not require the signature of the governor, but, having passed both branches of the assembly will be submitted to the voters at the ensuing regular election.

Governor Hadley sent a special message to the house, urging the passage of the resolution, into which he incorporated some interesting historical data concerning the present capitol, reviewing the loss occasioned by its burning seventy-two years ago, and reciting briefly some of the needs for a new building.

History of the Building.

The message, in part, follows:

It has been said by those who pretend to know that the state of Missouri has the finest executive mansion and the poorest capitol in the Union. While the statement may not be entirely correct, it is true that many states which rank far below Missouri in population and wealth have a larger and better capitol.

The first capitol was built upon the site of the present executive mansion, being begun in 1823 and completed in 1826, at a cost of $25,000. It was constructed of brick and was designed for the temporary use of the legislative and executive departments, with the idea that later it would be used as a residence for the governor. But in 1837 this building was destroyed by fire, together with the accumulated records of seventeen years. The present capitol, or that portion of it exclusive of the north and south wings, was begun in 1838 and completed in 1840, at an expense of $350,000. The two wings now occupied by the senate and the house were added in 1887.

Inadequate for Purpose.

The building as at present constructed is entirely inadequate for the executive and legislative departments. Only recently it has become necessary to provide quarters in the old supreme court building for a number of the departments. Every official who now has quarters in either the capitol or the old supreme court building is in need of additional room. There is not a strictly fireproof vault in the entire building, and any day the state may meet with the same expense that it met with seventy-two years ago, when it lost all of the state's records through the destruction of the capitol by fire. This would be incalculable.

In view of the fact that Missouri has no indebtedness, except that which exists for the benefit of the public schools, it can, in my opinion, well afford to incur this indebtedness for an appropriate capitol building. The bonds proposed can be floated for at least 3 per cent and the interest can be paid from the interest derived from the deposit of the state funds which now command 3.29 per cent interest.

It has been estimated by those familiar with such work that it would take eight or ten years to complete such a capitol as is proposed to provide for by the bond issue, and by that time the need for such a building will be far more imperative than it is today.

Mr. McKee Returns Home.

George McKee, general superintendent of motive power for the Mobile and Ohio railway, and wife, who came here Friday to bury his mother, departed Saturday afternoon for their home in St. Louis.

Years ago Mr. McKee was an engineer on the M., K. & T. railway out of this city, but he has risen in the railway world until he now holds a splendid position and ranks with the ablest men in his line of railroad service in the west.

A week ago Mr. McKee was at Okolona, Miss., where he visited J. J. Reilley, a former Missouri Pacific engineer here, who is now foreman of the M. & O. shops at Okolona and is getting along splendidly.

It always gives the Democrat-Sentinel pleasure to chronicle the advancement of Sedalians and former Sedalians.

BANK FUNDS ARE STOLEN

THIS TIME IT IS EMPLOYE OF THE MERCHANTS-LACLEDE IN ST. LOUIS.

CLERK CHARGED WITH $9,500 PECULATION

Prisoner Pleads That Needs of Home Required Him to Go Wrong—Expects to Be Able to Give Bond of $10,000.

St. Louis, Mo., May 8.—Peculations amounting to $9,500 and extending over a period of four years were admitted yesterday by Charles G. Swafford, a bookkeeper of the Merchants-Laclede National bank.

Swafford waived preliminary hearing before United States Commissioner Chase Morsey, on a warrant charging embezzlement, and was held under $10,000 bond to await the action of the federal grand jury. Swafford expects to be able to give bond.

He is the fourth St. Louis national bank employe who has been arrested on similar charges within the last three months, and claims that he was driven to take the money by family needs.

He was known as a man who dressed plainly, with simple tastes and methodical habits.

It is the theory of William Desmond, of the Desmond National Detective agency, who arrested Swafford under orders from a bonding company, that the bookkeeper has all the larger part of the money hidden away, as he does not believe a man of such habits could have spent so much.

Swafford says he has spent all of the $9,500 and holds to that figure, although the bank officials have thus far discovered discrepancies of but $8,800 in his books. The checking up of the books has not been completed, however.

Family Bible Proved Her Age.

Columbia, Mo., May 8.—A leaf from the family Bible was evidence enough to prove that Miss Stella Johnson is 18 years old when she and Herbert Schrader, 50 years old, applied for a marriage license in Mexico, Mo., Thursday. Her mother, Mrs. Margaret Johnson, objected to the match because the groom is almost three times as old as his bride.

Hedge Fences Must Be Cut.

The commissioners of the Twelve-Mile Road district met at the Citizens' National bank at 3:30 o'clock Saturday afternoon for the transaction of routine business. Among the matters attended to was the giving of orders for the cutting of hedge fences on all roads of the district.

BIG SUMS ARE ALLOWED

APPROPRIATIONS WERE NOT TRIMMED FURTHER ON READING.

MR. CARTER, OF CLARK, DID NOT SUCCEED

Attempts Fail to Cut Money Given for State Fair, Naval Reserves, N. G. M. and for Improvement of the Mansion.

Jefferson City, Mo., May 8.— The house ordered to engrossment Friday the general appropriation bill and a number of special appropriation measures. Several "watchdogs of the treasury" strove to scale down some of the general appropriations, but failed in each instance, the house standing by the recommendations of the appropriations committee.

Chairman Lloyd, of the appropriations committee, had a busy time defending his measures. The sums allowed to the national guards, naval reserves, state fair and to the governor for improvements at the executive mansion, and for a team and carriage, were subjected to attacks.

Mr. Carter, of Clark county, tried to reduce the naval reserve appropriation from $5,000 to $2,000. Mr. Lloyd protested. He told the house that the citizen sailors of the Huntress were no jokes and should not be considered as such.

He said that inland cities should make peace certain by preparing for war, as do the coast cities.

"The naval reserves ought to have $15,000, but we haven't the money," he said.

Mr. Carter then tried to cut out a $40,000 appropriation for a machinery building and a women's building on the state fair grounds at Sedalia. Again he failed. Then he objected to a $17,000 appropriation to purchase additional ground for the state fair. For the third time the house sustained the appropriations committee.

Mr. Lyles, of Shannon, protested against giving the governor $1,000 with which to purchase a carriage and horses. Chairman Lloyd contended that Missouri should furnish its underpaid governor a carriage. The house agreed with him. Mr. Lyles then sharpened his pruning knife for the $25,000 appropriation to build a new kitchen and otherwise to improve the executive mansion.

It also stood the test, however, and went through when Chairman Lloyd, who is a contractor and builder, declared the mansion unsanitary and in great need of repairs.

Mr. Taylor, of Chariton, next sought to reduce the national guard appropriation from $100,000 to $25,000. He ran against not only Mr. Lloyd, but Civil war veterans and sons of veterans as well, who resented his intimation that the guardsmen are tin soldiers.

Like failures met Mr. Taylor when he tried to trim the adjutant general's contingent fund from $10,000 to $5,000.

The total appropriation in the general revenue bill is $3,087,711.98, of which $1,328,700 will be derived from the fees paid to the various departments for which appropriations are made in the bill.

The general deficiency bill, with amendments, will total $774,515.09, covering money already expended.

Included in the latter measure is an item of $1.75, due the Waters-Pierce Oil Co. by the supreme court. The reading of this appropriation caused general amusement, the Waters-Pierce Oil Co. having recently paid the state $50,000 in fines assessed by the supeme court.

Representative Holcomb's motion to appropriate $25,000 to ventilate the chamber of the house of representatives and the state capitol was voted down, Chairman Lloyd giving an expert opinion that the money would be wasted and that the plan would be impracticable, because of the building's construction, a statement that proved a good argument for the new capitol bond issue, which was approved later by the house.

Meeting of the Federation.

At Friday night's meeting of the Sedalia Federation of Labor a plan was suggested for the erection of a Labor Temple in Sedalia, wherein every union organization in the city can meet. It was suggested that the matter be talked among union men to ascertain their views. The proposition is that every union man in Sedalia donate for five years one day's salary each year for the Temple.

The meeting nights of the Federation were changed from the first and third Fridays to the first and third Wednesdays of each month.

The union services of the First M. E. church have been postponed from May 9 to May 16.

FATE'S POSSIBILITIES

BY EDWARD F. McSWEENEY.

Before we pass judgment on the unfortunates who have gone down in the struggle with the world, we should remember that in every person's life there comes a day when some small circumstance, followed by a series of unexpected accidents, brought a crisis never contemplated, with the result that frequently only the sheerest kind of good luck prevented a life being spoiled and oftentimes the worst happened.

It is related of John Bunyan, author of "Pilgrim's Progress," that one day coming to a place where a malefactor's body was hanging from a gibbet, he said to his companion, "But for the grace of God there might hang John Bunyan." Henry Ward Beecher said once in a famous sermon delivered to a body of prisoners, that but for fortunate circumstance every man he knows might be among those he was addressing.

The writer recently had occasion to spend Sunday with a friend in charge of a great New York penal institution, in which are confined more than a thousand delinquents for minor offenses, such as drunkenness, disorderly conduct, street walking, etc.—the weak, not the wicked. At the divine service held on Sunday morning, about 400 men and 300 women prisoners were in attendance. Dressed in the regulation striped uniform of the prison, with faces scrubbed until they shone, most of the prisoners bore the marks of drunkenness, dissipation and disease; the lack-lustre eyes, the blue-white lips, were the sign of their condition; here and there the hectic flush and constant hacking cough indicated a victim of the white plague; only a few had the clear eyes, the upright carriage and firm set of the head on the shoulders which told of vigor and health. The general impression of the composite face was one of dogged despair, the result of an uphill, hopeless struggle against adverse circumstances; of weakened will power, lost ideals and shattered ambition.

As individual faces were studied, however, startling resemblances to well-known people, and even to personal friends, were noted. On the third bench was a counterfeit presentment of a well-known professional man; nose, eyes, teeth, everything but the expression of the face were identically the same. The professional man is clever, generous, cynical, a lover of good time and what goes with it; it is easy to conjecture where those qualities carried to excess could make the difference in condition between the successful doctor and the prisoner in stripes.

On a near-by seat, another prisoner was a duplicate in facial appearance of a prosperous Boston business man who is as hard as nails in his dealings with humankind; scrupulously honest, but with none of the milk human kindness, exacting what is his to the last farthing; what he claims is conscience is only an excuse to take the last penny in his debtor's till. In the convict's face, brutalized and exaggerated, were the cruel lines of the business man's face; it was easy to imagine how the qualities which had brought one man wealth, if not esteem, had been twisted and made the criminal, described by the official in charge as a cruel husband and heartless father who had shown all the qualities of a human brute.

Many good women who hold their heads high would not be flattered by their physical replicas on the women's side, morally and physically weakened by evil living, but with tendencies which, properly used, led in one case to happiness and prosperity, and improperly in the other to prison and shame.

As the convicts filed back to their cells, one of the writer's companions called attention to a prisoner passing by and said, "If that chap were dressed in your clothes he would make an exact double for you," which brought the moralizing to a personal plane, and increased respect for the wisdom of the old prophet, who said that our destinies are decided by nothing, a small imprudence helped by some insignificant action, as an acorn is fertilized by a drop of rain, may raise the trees by which we and others depending on us may be crucified.

In this connection an interesting story is told about the great artist, Leonardi de Vinci, whose painting, "The Last Supper," is known all over the world. For lack of suitable models, it took De Vinci many years to complete this painting. One of the first figures was that of Christ, the artist having found a young man who in every way typified his conception of the Savior. As he came across models whom he could use for the Apostles, he painted them in, but for several years found no acceptable model for the Judas. One day he met on the street a man whose repulsive and criminal look made him a suitable subject, who consented to go to De Vinci's studio and sit as the model for the Judas. As he posed, something familiar in the model's appearance caused the artist to ask if he had ever met him before, which elicited the astonishing but true reply that he who now posed as Judas had previously been painted as Christ, an unfortunate mis-step and its consequences having the difference.

As a cure for over-confidence and self-esteem, to teach charity of thought, forbearance in judgment, and especially to warn against the first wrong step, a visit in a proper spirit to any prison or reformatory is one of the best investments of time the ordinary individual can take.

TO SING AT STATE FAIR

Arrangements Being Made for Ladies' Musical Club to Participate

(From Sunday's Daily.)

In view of the fact that the numbers rendered by the Ladies' Musical club at the May festival at the Sedalia theater Friday night were so enthusiastically received, John T. Stinson, secretary of the Missouri state fair, is arranging plans so that the club members will take a prominent part in the sacred concert to be rendered at the state fair grounds on Sunday, October 3, the opening day of the fair.

The concert will be given by Weil's band, of St. Louis, but Secretary Stinson has decided that a greater interest will be shown if it is announced that Sedalia's own musical club will be the leading factor.

The plan adopted by Mr Stinson will no doubt receive the hearty support of every true-loving Sedalian.
